Company Background

Prescient Global Funds plc (the 'Company') is an open-ended investment company with variable capital organised under the laws of Ireland. It is authorised in Ireland by the Central Bank of Ireland as a designated investment company pursuant to Part XIII of the Companies Act, 1990 and as of April 1st 2011 the Company has been authorised pursuant to the UCITS regulations.

The Company is structured as an umbrella fund in that different classes of Participating Shares, each allocated to a particular sub-fund ('Fund'), may be issued from time to time by the Directors with prior consent to the Central Bank of Ireland. On the introduction of any new Fund, documentation will be prepared setting out the relevant details of each such Fund. The assets of each Fund will be separate from one another and will be invested in accordance with the investment objectives applicable to each such Fund. Particulars relating to the following Funds are set out in the Prospectus:

Prescient Global Positive Return (Euro) Fund (the "Positive Return Fund") (formerly known as "Prescient Global Cautious Fund)

Prescient Global Growth Fund (the "Growth Fund")

Prescient Global Income Fund(the "Income Fund")

The shares of the three Funds are quoted on the Irish Stock Exchange.

New Funds may be approved by the Central Bank of Ireland and supplemental prospectuses incorporating provisions relating to those Funds will be issued by the Company.

The share capital of each Fund shall at all times equal its Net Asset Value. The currency of designation of each Fund will be determined by the Directors at the time of launch of the Fund. In the case of the Funds in existence, this is US \$ for the Growth and Income Fund and EUR € for the Positive Return Fund.

Investors may deal in the Participating Shares by subscribing for and/or having their Participating Shares purchased or redeemed on each Dealing Day.

Prescient Global Positive Return (Euro) Fund

The investment objective of the Prescient Global Positive Return (Euro) Fund (the "Positive Return Fund") is to achieve long term capital growth appreciation while maintaining capital preservation through a diversified portfolio of securities invested in the world equity, bond and money markets and in regulated funds. The Fund may invest up to 100% of its Net Asset Value in regulated funds or may if market conditions and opportunities exist, invest in global equity, bond and money market instruments.

Underlying securities of the regulated funds and direct investments may consist of global equity securities, equity related securities such as preferred stocks and convertible securities, investment grade fixed or floating rate bonds issued by corporations and governments, certificates of deposit and short-term money market instruments such as commercial paper and treasury bills quoted on regulated markets. In relation to investment in non-equity securities, 90% of such investments will have a credit rating of "investment grade" by Standard & Poors, Moody's or Fitch Ratings Limited. A 10% exception will be permitted only if the Investment Manager and Custodian have applied appropriate due diligence guidelines. These investments will be based on broad geographic themes. The Fund may also invest up to 10% in unlisted securities and instruments in accordance with the investment restrictions in Appendix I of the Prospectus. The Fund may invest up to 10% of its Net Asset Value in equity and equity related securities of emerging markets.

The Fund may also invest in Regulated Funds subject to the requirement that the Fund will invest in at least five other funds and may not invest in another fund in excess of 20% of the said fund's market value. The Fund may also invest in derivatives for the purposes of efficient portfolio management. Such derivatives will typically be exchange traded futures and options in equity, bond or currency markets.

Asset allocation for this Fund is of a conservative nature with capital preservation and long term capital growth of equal priority. Typically, the Fund will hold a larger component of short-term money market instruments to dampen the volatility of the Fund.

The investment and borrowing restrictions for the Fund are set out in the Prospectus of the Company.

Company Background (continued)

Prescient Global Growth Fund

The investment objective of the Prescient Global Growth Fund (the "Growth Fund") is to achieve long term capital growth appreciation through a diversified portfolio of securities invested in the world equity, bond and money markets and regulated funds. The Fund may invest up to 100% of its Net Asset Value in regulated funds or may, if market conditions and opportunities exist, invest in global equity, bond and money market instruments.

Underlying securities of the regulated funds and direct investments may consist of global equity securities, equity related securities such as preferred stocks and convertible securities, investment grade fixed or floating rate bonds issued by corporations and governments, certificates of deposit and short-term money market instruments such as commercial paper and treasury bills quoted on regulated markets. In relation to investment in non-equity securities, 90% of such investments will have a credit rating of "investment grade" by Standard & Poors, Moody's or Fitch Ratings Limited. A 10% exception will be permitted only if the Investment Manager and Custodian have applied appropriate due diligence guidelines. These investments will be based on broad geographic themes. The Fund may also invest, to a limited extent, in unlisted securities and instruments. The Fund may invest up to 20% of its Net Asset Value in equity and equity related securities of emerging markets.

The Fund may not invest in another fund in excess of 20% of the said fund of funds' market value.

The Fund may also invest in derivatives for the purposes of efficient portfolio management. Such derivatives will typically be exchange traded futures and options in equity, bond or currency markets.

Asset allocation for this Fund will be more aggressive than for the Prescient Global Positive Return (Euro) Fund in pursuit of higher growth. Typically, the Fund will hold a larger component of equity investments with a bias towards more volatile equity markets.

The investment and borrowing restrictions for the Fund are set out in the Prospectus of the Company.

Prescient Global Income Fund

The investment objective of the Prescient Global Income Fund (the "Income Fund") is the generation of a high level of current income through a diversified portfolio of securities invested in the world bond, money market instruments and high yielding equities. Investments may consist of, but are not limited to, global investment grade fixed or floating rate bonds issued by corporations and governments, certificates of deposit and short-term money market instruments such as commercial paper, treasury bills and securities of property corporations quoted on Regulated Markets. In relation to investment in non-equities, 90% of such investments will have a credit rating of "investment grade" by Standard &Poors, Moody's or Fitch Ratings Limited. A 10% exception will be permitted only if the Investment Manager and Custodian have applied appropriate due diligence guidelines. These investments will be based on broad geographic themes. The Fund may also invest up to 10% in unlisted securities and instruments in accordance with the investment restrictions in Appendix 1 of the Prospectus. The Fund may invest up to 10% of its Net Asset Value in emerging markets.

The Fund may also use derivatives for the purposes of efficient portfolio management. Such derivatives will typically be exchange traded futures, options and swaps in bond, money market or currency markets.

The investment and borrowing restrictions for the Fund are set out in the Prospectus of the Company.

Directors' Report

For the year ended 30 June 2011

The Directors present their report together with the audited financial statements of the Prescient Global Funds plc ("the company") for the year ended 30 June 2011.

Principal Activities and Review of the Business

The company is an open ended investment company with variable capital organised under the laws of Ireland.

The company consists of the Funds: the Prescient Global Positive Return (Euro) Fund formerly named the Prescient Global Cautious Fund (name change effective from January 10th 2011), the Prescient Global Growth Fund which both commenced operations on 23rd January 1998 and Prescient Global Income Fund which commenced operations on 26 July 2007.

The net assets of the company were US\$ 183,572,690 on 30th June 2011 (30th June 2010: US\$ 165,275,961)

Principal Risks and Uncertainties

The principal financial risks and uncertainties facing the Company such as market risk, currency risk, interest rate risk, price risk, credit risk and liquidity risk are detailed in note 19 on pages 46 to 70.

Results for the year and Future Developments

The increase in net assets attributable to holders of participating shares for the year ended 30 June 2011 was US\$ 18,347,858 (30th June 2010: decrease of US\$ 6,838,665). The directors do not recommend the payment of a dividend (2010: US\$ Nil).

The performance during the year is dealt with in the Investments Manager's Reports on pages 11 to 20. The directors believe there are no future developments which will impact the Company as a going concern.

Accounting Records

The directors believe that they have complied with the requirements of Section 202 of the Companies Act 1990 with regard to the books of accounts by employing personnel with the appropriate expertise and by providing adequate resource to the financial function. The books of the Company were maintained by Apex Fund Services (Ireland) Limited from 1st July 2010 to 31st March 2011 and by Stadia Fund Management Limited from 1st April 2011 to 30th June 2011:

Stadia Fund Management Limited 49 Upper Mount Street Dublin 2 Ireland Apex Fund Services (Ireland) Limited Enterprise House, Watersedge Midleton, Cork Ireland

Segregated Liability

The Company has availed of the Segregated Liabilities provision of the Investments Funds, Companies, and Miscellaneous Provisions Act 2005 which provides that any liabilities of a sub fund will be discharged solely from the assets of that sub fund.

Risk Management Objectives and Policies

It is the opinion of the Board of Directors that the information required by the Modernisation Directive and Fair Value Directive and European Communities (Fair Value Accounting) Regulations 2004, is contained in the Investment Manager's Report on pages 11 to 20 and in note 19 to the financial statements.

Directors

The names of the persons who are Directors of the Company are set out on page 3.

The directors are not required to retire by rotation.

Directors' Report (continued) For the year ended 30 June 2011

Events during the year

On January 10th 2011 the Prescient Global Cautious Fund, changed its base currency from US\$ to Euro and was also renamed to the Prescient Global Positive Return (Euro) Fund. This change was due to a change in investment objectives of the fund, to seeking positive returns in Euro, while maintaining capital preservation through a diversified portfolio of securities. As a result, receipts and payments in this Fund are now denoted in Euro.

On January 10th 2011 each sub Fund issued a new class, "Class D". These classes were listed on the Irish Stock Exchange on April 6th 2011.

With effect from April 1st 2011, Stadia Fund Management Limited replaced Apex Fund Services (Ireland) Limited as administrators of the Fund.

On April 1st 2011 the Fund was authorised as a UCITS (Undertaking for Collective Investments in Transferable Securities) Fund

On April 1st 2011 Stadia Fund Management Limited was appointed manager of the fund.

The Custodian of the Company, PNC International Bank Limited, changed its name to BNY Mellon International Bank Limited on 5th July 2010. The custodian agreement was novated to BNY Mellon Trust Company (Ireland) Limited on 30th June 2011.

Events after year end

There were no subsequent events that require disclosure in these financial statements.

Directors' and Secretary's Interest in shares and contracts

The directors and Company Secretary who held office on 30th June 2011 had no interest in the shares of the Company at the year end date. None of the directors has a service contract with the Company.

Mr. Carey Millerd is Chief Executive Officer at Prescient Investment Management (Pty) Ltd (the Investment Manager) and Mr. Hermanus Steyn is Executive Chairman of the Investment Manager. Mr. Hermanus Steyn and Mr. Carey Millerd are also directors of Stadia Fund Management Limited (the Manager).

Ms. Fiona Mulcahy is a consultant to Dillon Eustace Solicitors, legal advisors to the Company.

Apart from the above, there were no contracts or arrangements of any significance in relation to the business of the Company in which the directors or the Company Secretary had any interest, as defined in the Companies Act 1963 to 2009, at any time during the year ended 30 June 2011.

Independent Auditor

KPMG, Chartered Accountants and Registered Auditor, have indicated their willingness to continue in office in accordance with Section 160 (2) of the Companies Act 1963.

Statement of Corporate Governance

Although there is no specific statutory corporate governance code applicable to Irish collective investment schemes whose shares are admitted to trading on the Irish Stock Exchange, the Company is subject to corporate governance practices imposed by:

- (i) The Irish Companies Acts 1963-2009 which are available for inspection at the registered office of the Company at 33 Sir John Rogerson's Quay, Dublin 2 and may also be obtained at: http://www.irishstatutebook.ie/home.html;
- (ii) The Articles of Association of the Company which are available for inspection at the registered office of the Company at 33 Sir John Rogerson's Quay, Dublin 2 and at the Companies Registration Office in Ireland;

Directors' Report (continued) For the year ended 30 June 2011

- (iii) The Central Bank of Ireland in their UCITS Notices and Guidance Notes which can be obtained from the Central Bank of Ireland (the "Central Bank") website at: http://www.financialregulator.ie/industry-sectors/funds/Pages/default.aspx and are available for inspection at the registered office of the Company at 33 Sir John Rogerson's Quay, Dublin 2, Ireland;
- (iv) The Irish Stock Exchange (the "ISE") through the ISE Code of Listing Requirements and Procedures which can be obtained from the ISE's website at: http://www.ise.ie.

The Board of Directors (the "Board") has assessed the measures included in the Corporate Governance Code for Irish Domiciled Collective Investment Schemes as published by the Irish Funds Industry Association dated September 2010 ("IFIA Code") as being consistent with its corporate governance practices and procedures for the financial year. The IFIA Code is available on the IFIA website. Each of the service providers engaged by the Company is subject to their own corporate governance requirements.

The Board rely on Stadia Fund Management Limited, as Manager of the Company, to ensure compliance with the Code by the Company.

Financial Reporting Process - Description of Main Features

The Board is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. The Board has delegated these responsibilities to the Manager. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss. The Manager is authorised and regulated by the Central Bank of Ireland and must comply with the rules imposed by the Central Bank of Ireland.

The Board has procedures in place to ensure all relevant books of account are properly maintained and are readily available, including production of annual and interim financial statements. The annual financial statements of the Company are required to be approved by the Board and the annual and interim financial statements of the Company are required to be filed with the Central Bank of Ireland and the Irish Stock Exchange. The statutory financial statements are required to be audited by independent auditors who report annually to the Board on their findings. The Board evaluates and discusses significant accounting and reporting issues as the need arises.

Monitoring of Service Providers

The Board receives regular presentations and reviews reports from the Manager, in relation to Administration and Transfer Agency functions, as well as the Custodian and Investment Manager. The Board also has an annual process to ensure that appropriate measures are taken to consider and address the shortcomings identified and measures recommended by the independent auditors.

Shareholder meetings

The convening and conduct of shareholders' meetings are governed by the Articles of Association of the Company and the Companies Acts. Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors are required to convene an annual general meeting of the Company within eighteen months of incorporation and fifteen months of the previous annual general meeting thereafter.

In accordance with S.132 of the Irish Companies Acts, shareholders representing not less than one-tenth of the paid up share capital of the Company may also request the Directors to convene a shareholders' meeting. Not less than twenty one clear days' notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to shareholders and fourteen clear days' notice must be given in the case of any other general meeting unless the auditors of the Company and all the shareholders of the Company entitled to attend and vote agree to shorter notice.

Two members present either in person or by proxy constitutes a quorum at a general meeting provided that the quorum for a general meeting convened to consider any alteration to the class rights of shares is two shareholders holding or representing by proxy at least one third of the issued shares of the relevant fund or class.

Every holder of participating shares or non-participating shares present in person or by proxy who votes on a show of hands is entitled to one vote. On a poll, every holder of participating shares present in person or by proxy is entitled to one vote in respect of each share held by him and every holder of non-participating shares is entitled to one vote in respect of all non-participating shares held by him. The chairman of a general meeting of the Company or at least five members present in person or by proxy or any member or members present in person or by proxy representing at least one tenth of the shares in issue having the right to vote at such meeting may demand a poll.

Directors' Report (continued) For the year ended 30 June 2011

Shareholders may resolve to sanction an ordinary resolution or special resolution at a shareholders' meeting. An ordinary resolution of the Company requires a simple majority of the votes cast by the shareholders voting in person or by proxy at the meeting at which the resolution is proposed. A special resolution of the Company or of the shareholders of a particular fund or class requires a majority of not less than 75% of the shareholders present in person or by proxy and voting in general meeting in order to pass a special resolution including a resolution to amend the Articles of Association.

Composition and operation of the Board and Committees

Unless otherwise determined by an ordinary resolution of the Company in general meeting, the number of Directors may not be less than two. Currently the Board of Directors of the Company is composed of four Directors, two of whom are independent of the Investment Manager as required by the Irish Stock Exchange Listing Rules for investment funds. The Directors are listed on page 3 of these financial statements.

The business of the Company is managed by the Directors, who exercise all such powers of the Company as are not by the Companies Acts or by the Articles of Association of the Company required to be exercised by the Company in a general meeting.

A Director may, and the Company Secretary of the Company on the requisition of a Director will, at any time summon a meeting of the Directors. The Board of Directors meets at least quarterly. Questions arising at any meeting of the Directors are determined by a majority of votes. In the case of an equality of votes, the chairman has a second or casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' report and the statutory financial statements in accordance with applicable laws and regulations.

Company law requires Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with Generally Accepted Accounting Practice in Ireland, comprising applicable law and the accounting standards issued by the Accounting Standards Board and promulgated by the Institute of Chartered Accountants in Ireland.

The Company's financial statements are required by law to give a true and fair view of the state of affairs of the Company and the profit and loss for that period.

In preparing the financial statements, the Directors are required to:

On habalf of the Board of Directors

- Make suitable accounting policies and then apply them consistently;
- Make judgements and estimates that are reasonable and prudent; and
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping proper books of account that disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the statutory financial statements, which are separately prepared, comply with the Companies Acts 1963 to 2009 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2003. They are also responsible for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities. The books of the account are maintained at 49 Upper Mount Street, Dublin 2, Ireland.

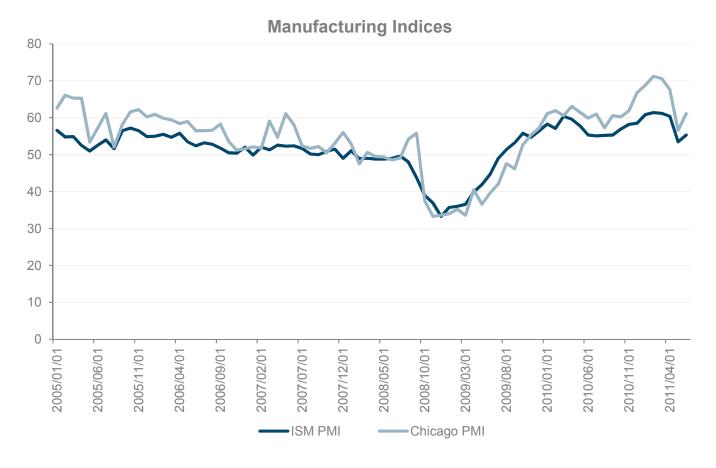

The Directors are also responsible for preparing a Directors' Report that complies with the requirements of the Companies Acts 1963 to 2009.

Investment Managers Report

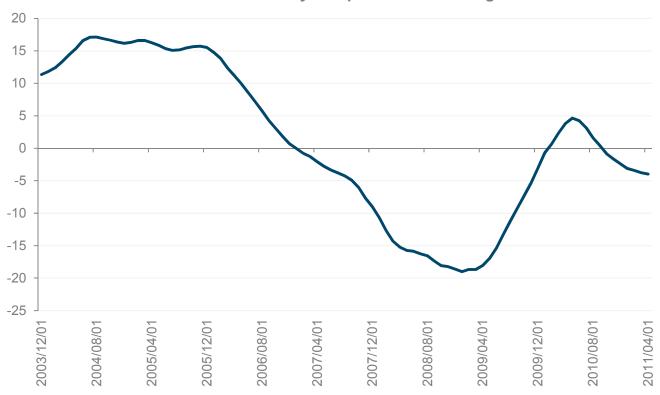

GLOBAL MARKET RECAP

The year ending June 2011 was very volatile, a strong 3rd and 4th quarter of 2010 triggered partially by unconventional monetary policy of QE3 looked promising until the 1st quarter of 2011 where it became apparent that the strong recovery was only temporary. By 2Q 2011 it became apparent that the global economy entered a weaker than usual recovery, what this means is that it risks falling into another recession should there be a large enough shock. The Greek crisis once again came to the fore over the 2nd quarter of 2011. In its simplest form, Greece has overspent and borrowed to do so and is now facing a solvency issue, unable to pay back the debt that it had borrowed. The danger of the Greek situation is twofold, firstly should Greece default on its bonds, this may reduce the reserves at banks which hold Greek bonds, which in turns result in a liquidity withdrawal from the global system such as the Lehman Brother default; this of course would be catastrophic for the economy and the markets. With a weak recovery, the global economy is not likely to do well with a simultaneous liquidity withdrawal. The second danger of the Greek default is of course contagion and what it implies for countries such as Portugal, Ireland, Spain and Italy which have very similar problems but less acute currently, the fear is that if the Greek solution causes large investor losses, this will trigger sell offs in those countries causing a wider crisis. By the 2nd quarter of 2011 the manufacturing sector weakened significantly from the strong 4th Quarter 2010 and 1st quarter 2011, the effects of the Japanese earthquake can be felt in the 2nd quarter with much weaker manufacturing data, although the data rebounded in the last week of June with the latest prints.

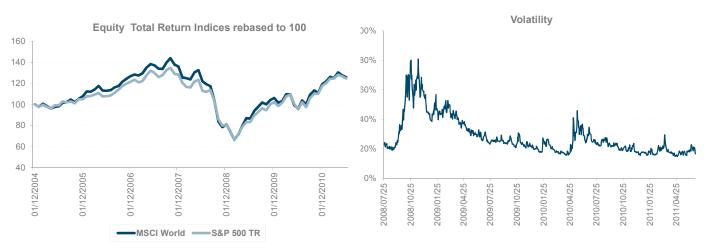

As mentioned throughout the year, US housing is another factor which can have a dramatic impact on the market. Whereas the equity market makes up roughly 15%-20% of household wealth, housing typically represents 40%-50% of household wealth. The Case-Shiller US housing index continues to drop into the second quarter although the rate of the drop has slowed, the Case-Shiller 20 city index is down 4% over the year. The housing sector can be used as a proxy for the wealth of the average person in 'main street' away from wall street. With a weaker housing market it is unlikely that 'main street' will have high confidence and spend, this is quite negative for the economy as a whole going forward.

Case-Shiller 20 city composite Y-o-Y Change

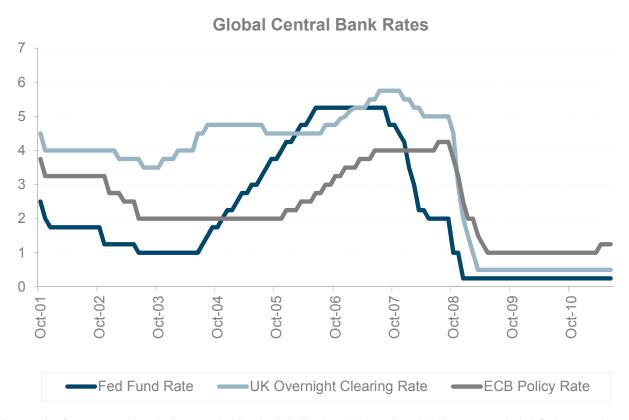

Equity returns and volatility

Equities rose roughly 30% for the year, delivering all its performance within a 6 month period after the launch of QE2 in September 2010. Implied volatility remained sticky around the 18-20% region, though lower than the crisis periods, it has not yet returned to the lows of the 2004 - 2007 era.

Central Bank Policy Rates

The ECB were the first to act with a 25 bps rate in hike April, indicating their continued vigilance over their inflation mandate. The hike although small does highlight a difference in philosophy to the US and UK, with the ECB hiking in spite of weak growth in the Euro Region. Only history will tell whether the ECB's stance will payoff in the long run.

Credit spreads in the Euro area increased around 40 basis points over the quarter, which is quite a large increase for non-crisis times, reflecting once again the uncertainty of the Greek situation.

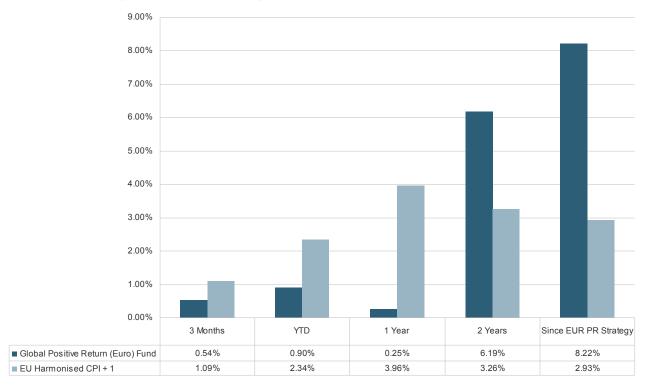

Credit spreads & Risk indicators

Overall, the year was a great year for equities delivering good returns.

PRESCIENT GLOBAL POSITIVE RETURN (EURO) FUND

The Prescient Global Positive Return (Euro) Fund is a Euro based positive return portfolio. It aims to minimize losses in EUR when the market is down, while delivering real returns over the long term.

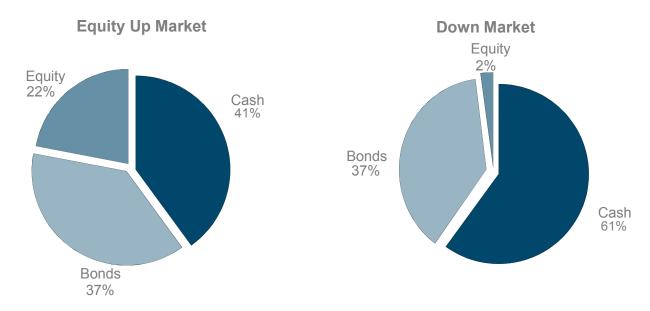

Global Positive Return (Euro) Fund Performance

Over the last year the fund is up 25bps vs. our benchmark of 4%. With tremendously high implied volatility over the past year as well as record low interest rates, the global positive return (euro) fund struggled to get exposure to equities. In times of low equity market performance and uncertain economic scenarios, the fund seeks to protect capital. This will help the fund compound positive returns when the risk adjusted pricing of equity markets improve.

Current Strategy

Global equity volatility is slightly higher than average. The combination of volatility, interest rates, dividend yield and inflation, together with equity valuations determines the asset allocation of the Prescient Global Positive Return (Euro) Fund. The combination of factors mentioned above means we can allocate 22% to protected equities. The protected equity is held in S&P 500 options.

The asset allocation of the Fund with respect to changes in the equity market is shown below. Due to non-linear nature of derivatives, the Global Positive Return (Euro) Fund has less equity exposure to equity down markets than equity up markets.

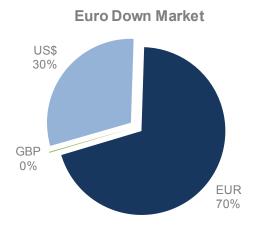

The Prescient Global Positive Return (Euro) Fund holds some exposure to bonds. This includes very short dated (<2 years duration) high quality credit bonds and these bonds are used as yield enhancements over cash as they remain at attractive levels. Due to their short duration and high quality, the position has very little risk. Remaining bonds in the Global Positive Return (Euro) Fund are high quality inflation linked bonds ("ILB's"). These bonds protect investors from an inflationary environment and fit the mandate of the Fund very well. Over the 2nd Quarter we added some more ILBs to the portfolio, the ILB's are linked to inflation and currently provide a yield of over 5% compared to cash of roughly 1%. The Fund will seek to add assets that can protect against inflation when they are at attractive levels.

	Bond Positions								
Company	Expiry	Yield	Purchased Yield	% of Fund					
ABSA	16/07/2012	Libor + 2%	Libor + 8%	9.64%					
FirstRand	20/06/2012	Libor + 2%	Libor + 8.00%	8.33%					
Standard Bank	30/07/2012	Libor + 2%	Libor + 10.35%	3.37%					
Barclays	08/06/2018	Inflation + 2%	Inflation + 2.5%	6.89%					
Citi	13/07/2018	Inflation + 2%	Inflation + 2.55%	6.81%					
Goldman Sachs	25/06/2025	Inflation + 4.7%	Inflation + 5.2%	2.92%					

Although the Prescient Global Positive Return (Euro) Fund is a Euro based fund, current events surrounding the viability of the European debt situation means that there could be some volatility in the Euro in the short term. Long dated Euro vs. US dollar put options were purchased due to low implied volatility (low cost) and it protects 33% of the Fund. Should the Euro suffer a short term negative currency adjustment, the Global Positive Return (Euro) Fund will be protected against some of those moves.

The asset allocation of the Global Positive Return (Euro) Fund with respect to currency is as follows.

Overall the Positive Return (Euro) Fund is currently very conservative in its asset allocation with a majority of its assets in fixed income instruments. The Fund will look to be more aggressive when the risk adjusted valuation of asset classes improves.

The Fund currently holds a well diversified portfolio of assets that are positioned to deliver real returns for investors should the market continue to rise, while protecting investors from downside volatility.

The Fund's position is shown below.

PRESCIENT GLOBAL GROWTH FUND

The Prescient Global Growth Fund aims to gain broad exposure to global developed markets, primarily equities, with an active asset allocation strategy. The equity is managed using a quantitative bottom up model called Equity Active Quant (EAQ). This process aims to consistently outperform the MSCI World Index.

Over the past year, ending June 2011, the fund delivered strong performance, up 21.01%. This was on the back of the MSCI World Total Return Index rising 31.19%. The benchmark, OECD G7 inflation + 1.5%, returned 4.62%. Over the past year the fund has exceeded the benchmark by a large margin.

Prescient Global Growth - Performance (USD)								
3 Months YTD 1 Year 3 Years Since In								
OECD G7 Inflation +1.5%	1.43%	3.26%	4.62%	2.56%	3.44%			
MSCI WORLD	0.68%	5.62%	31.19%	1.04%	2.75%			
Global Growth	0.01%	3.62%	21.01%	-4.15%	2.59%			

* Inception 28/02/1998

Over the last quarter the S&P 500 Index rose 28%, FTSE 100 20.9% and Nikkei 225 rose 4.6%, and EuroStoxx 50 fell 10.7%. The fund's equity carve out rose 26.91% while the MSCI World Price Index rose 27.83%. Within the 3 factor EAQ model the Earnings Core and Price Indifferent Indexation components detracted from performance while Momentum added to performance. The model has delivered 0.5% alpha over 12 months. During the last quarter the equity was realigned to the latest model. The factors were weighted as follows, Earnings Core 60%, Price Indifferent Indexation (PII) 15% and Momentum 25%. The fund is invested 70% in equities.

The 30% cash portion of the fund is predominantly invested in the Prescient Global Income Fund (19%) and inflation linked bonds (10%), with the remainder in various major currencies. The cash was largely USD and a smaller portion was Euros. Although the nominal cash exposure was 63% USD and 37% Euro, Euro protection at various levels reduced the Euro allocation to 17% on an effective basis. Euro protection allows the fund to switch into Dollars at a favourable level should the Euro weaken. The Euro holding in the fund produced positive performance as the Euro strengthened against the US Dollar over the last quarter. The inflation linked notes also performed well as yields on US inflation protected bonds declined.

The equity allocation in the fund is cognisant of the MSCI World benchmark. As such the equity country allocation is United States (49.3%), Europe (22.2%), Great Britain (10.8%), Japan (7.8%), Australia (3.6%), Canada (3.1%) and an allocation to smaller markets (3.2%). The Fund's asset allocation will remain 70% in global equity and 30% in income assets until valuations warrant a change. The income assets include inflation linked notes, cash instruments and exposure to currency derivatives and credit via the Fund's holding in

the Prescient Global Income Fund. The Fund is earning a good yield in credit linked notes, although the credit allocation is conservative.

Country Allocation

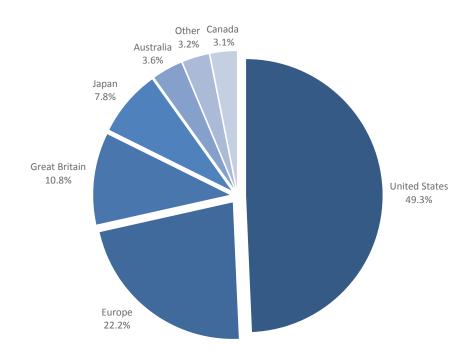

Figure 1: Country Allocation 30 June 2011

PRESCIENT GLOBAL INCOME FUND

The Global Income fund returned 12.09% in US dollars for the year ending 30 June 2011. The fund's performance is as a result of the exposure to the euro, the performance of the inflation linked notes that we bought during the course of the year, credit spread compression and carry.

The fund has had physical exposure of over 60% to the euro over the year. The euro strengthened by 18% to the USD over the period.

We continue to believe that there are risks that the USD will underperform the euro in the longer term due to combination of both current account and budget deficits and the difficulties the US economy is facing. However given the euro's strong performance over year and the still unresolved issues surrounding the sovereign debt crisis in Europe we have increased our dollar call exposure. The Prescient Global Income Fund has achieved a performance of 1.56% in USD since inception (25 July 2007).

Below is a table of the performance for the Global Income Fund:

Prescient Global Income Fund - Performance (USD)								
_	1 Month	3 Months	6 Months	1 Year	2 Year	Inception		
Fund	0.38%	2.13%	6.23%	12.09%	3.59%	1.56%		
Benchmark (90 Day US Treasury Bill)	0.00%	0.01%	0.04%	0.12%	0.12%	0.87%		

The Fund's performance was partly due to the allocation to Euro, in a period in which the USD depreciated. The inflation linked notes also performed well during the quarter as yields on US inflation protected bonds declined during the period.

The following graph shows the physical exposure of the fund at 30 June 2011:

	Prescient Global Income Fund						
Fund	Fund Position Report - Physical Exposure						
MV in US\$ % of Total Yield							
Money Market Instruments							
USD	\$46 857 385	39.94%	5.33%				
EUR	\$70 450 090	60.06%	1.75%				
Total	\$117 307 475	100%	3.18%				

The physical allocation of the fund is split between USD and EUR.

The following chart shows the effective exposure of the Fund, taking into account the forward and options positions on the EUR:

	Prescient Global Income Fund Fund Position Report - Effective Exposure						
	MV in US\$	% of Total	Yield				
USD	\$84 617 949	72.1%	5.33%				
EUR	\$32 689 526	27.9%	1.75%				
Total	\$117 307 475	100.00%	3.18%				

Counterparty Exposure:

The following table shows the counterparty exposure of the fund:

	Prescient Global Income Fund							
Fund	Fund Position Report - Counterparty Exposure							
	MV in US\$	% of Total						
Citibank	\$23 530 450	20.06%						
Nedbank	\$21 964 671	18.72%						
Barclays	\$17 817 347	15.19%						
Standard Bank	\$20 243 899	17.26%						
Firstrand	\$10 658 502	9.09%						
ABSA	\$19 078 606	16.26%						
Goldman Sachs	\$4 014 000	3.42%						
Exchange traded	\$0	0.00%						
Total	\$117 307 475	100%						

Over the year, we maintained a very conservative credit allocation, with exposure to only Senior Deposits and Notes of high quality banks. We have 6 USD inflation linked bonds in the portfolio, having added another two to the portfolio over the most recent quarter (1st April 2011 to 30th June 2011). We continue to believe that rates in developed market will kept low given the challenges that are being faced and as a result real short term notes are likely to continue being negative.

The strategy in the portfolio has focused on being out of the US Dollar for some time, with the majority invested in euro. The fund has options exposure in the form of dollar calls which we bought early last year over concerns about the sovereign debt crisis. We used the strong rally in the euro versus the USD over the quarter (1st April 2011 to 30th June 2011) to add to our options positions, by buying more USD calls bringing our effective exposure to the euro to 27.9%.

Custodian Report

Report of the Custodian to the Shareholders

We have enquired into the conduct of Prescient Global Funds plc (the "Company") for the year ended 30th June 2011, in our capacity as custodian to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company, in accordance with the Central Bank of Ireland's UCITS Notice 4, and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Custodian

Our duties and responsibilities are outlined in the Central Bank of Ireland's UCITS Notice 4. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's Memorandum and Articles of Association and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (the "Regulations"). It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as custodian must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Custodian Opinion

The custodian conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in UCITS Notice 4 and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum and Articles of Association and by the Regulations; and
- (ii) otherwise in accordance with the provisions of the Memorandum and Articles of Association and the Regulations.

Date:

Independent Auditor's Report

to the shareholders of the Prescient Global Funds plc

We have audited the financial statements of Prescient Global Funds plc ("the Company") for the year ended 30th June 2011 which comprise the Profit and Loss Account, the Balance Sheet, Statement of Changes in Net Assets Attributable to Holders of Participating Redeemable Shares, Statement of Total Recognised Gains and Losses with the related notes and the Statements of Investments. These financial statements have been prepared under the accounting policies set out therein.

This report is made solely to the Company's shareholders, in accordance with Section 193 of the Companies Act, 1990. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an independent auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of Directors and Independent Auditor

The directors' responsibilities for preparing the Annual Report and financial statements in accordance with applicable law and the accounting standards issued by the Accounting Standards Board and promulgated by the Institute of Chartered Accountants in Ireland (Generally Accepted Accounting Practice in Ireland), are set out in the Statement of Directors' Responsibilities on page 10.

Our responsibility is to audit the financial statements in accordance with the relevant legal and regulatory requirements and International Standards on Auditing (UK and Ireland).

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Irish statute comprising the Companies Acts, 1963 to 2009. We also report to you whether, in our opinion, proper books of account have been kept by the Company and whether the information given in the Directors' Report is consistent with the financial statements. In addition, we state whether we have obtained all the information and explanations necessary for the purposes of our audit and whether the Company's financial statements are in agreement with the books of account.

We also report to you if, in our opinion, any information specified by law regarding directors' remuneration and directors' transactions is not disclosed and, where practicable, include such information in our report.

We read the other information, comprising the Report of the Custodian and the Investment Manager's Report, accompanying the financial statements and consider whether it is consistent with the audited financial statements. We consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements.

Basis of audit opinion

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Accounting Practice Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the Company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of the information in the financial statements.

Opinion

In our opinion:

• the financial statements give a true and fair view, in accordance with the Generally Accepted Accounting Practice in Ireland, of the state of affairs of the Company as at 30th June 2011 and of its total recognised gains and losses for the year ended.

Independent Auditor's Report (continued)

to the shareholders of the Prescient Global Funds plc

 the financial statements have been properly prepared in accordance with the Companies Acts, 1963 to 2009 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2003.

We have obtained all the information and explanations we considered necessary for the purposes of our audit. In our opinion, proper books of account have been kept by the Company. The Company's financial statements are in agreement with the books of account.

In our opinion, the information given in the Directors' Report on pages 6 - 9 is consistent with the financial statements.

Notes to the Financial Statements

For the year ended 30 June 2011

1 GENERAL

Prescient Global Funds plc (the "Company") is an open-ended investment company with variable capital incorporated on 14 November 1997, under the laws of Ireland. The Company was admitted to the Irish Stock Exchange on 3 March 1998. It was authorised in Ireland by the Central Bank of Ireland as a designated investment company pursuant to Part XIII of the Companies Act, 1990 and was also authorised effective of April 1st 2011 pursuant to the UCITS regulations.

The Company is structured as an umbrella fund in that different classes of Participating Shares (each allocated to a particular Fund) may be issued from time to time by the Directors with the prior consent of the Central Bank of Ireland.

2 PRESENTATION OF FINANCIAL STATEMENTS

The Company consists of three Funds:

- The Prescient Global Positive Return (Euro) Fund (the "Positive Return Fund") formerly the Prescient Global Cautious Fund
- The Prescient Global Growth Fund (the "Growth Fund")
- The Prescient Global Income Fund (the "Income Fund")

A separate pool of assets (a 'Portfolio') is maintained for each Fund, each being invested in accordance with investment objectives applicable to the Fund to which the Portfolio relates.

The information required by Financial Reporting Standard No. 3 "Reporting Financial Performance" to be included in a Statement of Total Recognised Gains and Losses and a Reconciliation of Movements in Shareholders' funds is, in the opinion of the Directors, contained in the Profit and Loss Accounts and the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares.

In arriving at the results for the period, all amounts in the Profit and Loss Account relate to continuing operations.

i. Basis of Preparation

The financial statements are prepared under the historic cost convention as modified to include investments at fair value.

The financial statements are prepared in accordance with accounting standards generally accepted in Ireland and, in accordance with Irish statute comprising the Companies Acts, 1963 to 2009, and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2003 (as amended). Accounting standards generally accepted in Ireland for preparing financial statements are those promulgated by the Institute of Chartered Accountants in Ireland and issued by the Accounting Standards Board.

The financial statements have been prepared on a going concern basis.

ii. Estimates and Judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expense. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances the result of which forms the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The estimates underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is reversed and in any future period affected.

Notes to the Financial Statements (continued)

For the year ended 30 June 2011

2 PRESENTATION OF FINANCIAL STATEMENTS (continued)

iii. Functional Currency and Foreign Currency Translation

The functional currency of the Global Income Fund and Global Growth Fund is US\$, and the functional currency of the Positive Return Fund is Euro (as the directors have determined that this reflects the respective Funds' primary economic environment). The presentation currency of the Company is US\$. Transactions in foreign currencies are translated at the foreign currency exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated to US\$ or Euro at the foreign currency closing exchange rate ruling at the balance sheet date. Foreign currency exchange differences arising on translation and realised gains and losses on disposals or settlements of monetary assets and liabilities are recognised in the Profit and Loss Account. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to US\$ or Euro at the foreign currency exchange rates ruling at the dates that the values were determined. Foreign currency exchange differences relating to investments at fair value through profit or loss and derivative financial instruments are included in gains and losses on investments. All other foreign currency exchange differences relating to monetary items, including cash are presented in the Profit and Loss Account.

The functional and presentation currency of the Positive Return (Euro) Fund changed from US\$ to Euro on 10th January 2011. The accounting policies applied to reflect the change in currency are outlined in Note 3 (vii).

Foreign exchange gains and losses on financial assets and financial liabilities at fair value through profit or loss are recognised together with other changes in fair value. Included in the profit or loss line account item Net gain on financial assets and liabilities at fair value through profit and loss are net foreign gains and losses on monetary financial assets and financial liabilities other than those classified at fair value through profit or loss.

iv. Changes in Accounting Policy

There were no changes in accounting policies which had an impact on the Company's financial statements.

3 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in the financial statements.

i. Financial Instruments

(a) Categorisation

In accordance with FRS 26 "Financial Instrument Measurement", the Company has designated its investments into financial assets at fair value through profit or loss category.

The category of financial assets and financial liabilities at fair value through profit or loss comprises:

• Financial instruments held-for-trading. These include investments in equities, collective investment schemes, corporate bonds, floating rate notes, certificates of deposit, options and forward foreign exchange contracts as financial derivative instruments on the balance sheet. All derivatives in a net receivable position (positive fair value), as well as options purchased are reported as financial assets held-for-trading. All derivatives in a net payable position (negative fair value), as well as options written, are reported as financial liabilities held-for-trading.

Notes to the Financial Statements (continued)

For the year ended 30 June 2011

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

i. Financial Instruments (continued)

Financial instruments designated at fair value through profit or loss upon initial recognition. These include financial assets that are not held for trading purposes and which may be sold.

Financial assets that are classified as loans and receivables include cash at bank, receivables and other assets.

Financial liabilities that are not at fair value through profit or loss include management fees, other payables and accrued expenses.

(b) Recognition

The Company recognises financial assets or liabilities on the date it becomes party to the contractual provisions of the instrument. From this date, any gains and losses arising from changes in fair value of the financial assets or liabilities are recorded in the Profit and Loss Account.

(c) Measurement

Financial instruments are measured initially at fair value (transaction price) plus, in case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately, while on other financial instruments they are amortised.

Financial liabilities, other than those at fair value through profit or loss, are measured at amortised cost using the effective interest rate, less impairment loss, if any. Financial liabilities arising from the participating shares issued by the Company are carried at the redemption amount representing the investors' right to a residual interest in the Company assets.

(d) Fair Value Measurement Principles

This is the value of financial assets held for trading which are acquired or incurred principally for the purpose of selling or repurchasing. The value of any investment, which is a unit of or a participation in an open-ended collective investment scheme, shall be calculated by reference to the latest available net asset value of such unit/participation provided by the administrator of that collective investment scheme which approximates to fair value.

The fair value of financial instruments is based on their quoted market prices at the balance sheet date without any deduction for estimated future selling costs. Financial assets are priced at current bid prices, while financial liabilities are priced at current ask prices.

The fair value of marketable investment securities, listed on a recognised stock exchange or traded on any other organised markets, is based on quoted market prices at year end date. The quoted market price used for financial assets held by the Company is the bid price at year end date.

In the case of any securities not listed, quoted or dealt in on a regulated market or for which no quotation or value is available which would provide a fair valuation of, or in respect of which the price is unrepresentative, the value of such security shall be determined on the basis of the probable realisation value and shall be determined with care and good faith by, the Investment Manager, a stockbroker or other competent person appointed by the Investment Manager and approved for this purpose by the Custodian.

Forward foreign exchange contracts are valued by reference to the forward price at which a new forward contract of the same size and maturity could be undertaken at the valuation date.

In the case of options, when the Company purchases options, an amount equal to the premium paid by a Fund is included in the Company's Balance Sheet as an asset. The amount of the asset is subsequently marked-to-market to reflect the current market value of the option purchased.

Notes to the Financial Statements (continued)

For the year ended 30 June 2011

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

i. Financial Instruments (continued)

(e) Specific Instruments

Options

Options are derivative financial instruments that give the buyer, in exchange for a premium payment, the right, but not the obligation, to either purchase (call option) or sell (put option) to the writer a specified underlying instrument at a specified price on or before a specified date. The Company enters into exchange-traded and over-the-counter option contracts to meet the requirements of its risk management and trading activities. Both the realised and unrealised gain or loss in respect of options contracts are recognised in the Profit and Loss Account. When a Fund writes a covered call or put option, an amount equal to the premium received by a Fund is included in a Company's Balance Sheet as a liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. At the year end date there were no covered options held by the Funds.

Forward foreign exchange contracts

A forward currency contract involves an obligation to purchase or sell a specific currency at a future date, at a price set at the time the contract is made. Forward currency contracts are valued by reference to the forward price at which a new forward contract of the same size and maturity could be undertaken at the valuation date. The unrealised gain or loss on open forward currency contracts is calculated as the difference between the contract rate and this forward price and is taken to the Profit and Loss Account.

Equities and Fixed Income Securities

The market value of marketable investment securities, listed on a recognised stock exchange or traded on any other organised markets, is based on quoted market prices at the Valuation Point.

Cash and cash equivalents

Bank accounts and term deposits are valued at nominal value plus accrued interest if applicable.

(f) Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition in accordance with FRS 26.

(g) Offsetting

Financial assets and liabilities are offset and the net amount presented in the balance sheet when, and only when, the Fund has a legal right to set off the recognised amounts and it intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted under Irish GAAP, for example, for gains and losses arising from a group of similar transactions, such as gains and losses from financial instruments at fair value through profit or loss.

Notes to the Financial Statements (continued)

For the year ended 30 June 2011

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

(h) Identification and measurement of impairment

At each reporting date the Fund assesses whether there is objective evidence that financial assets measured at amortised cost are impaired. A financial asset or a group of financial assets is impaired when objective evidence demonstrates that a loss event has occurred after the initial recognition of the asset(s) that can be estimated reliably.

Objective evidence that financial assets are impaired can include significant financial difficulty of the borrower or issuer, default or delinquency by a borrow, restructuring of a loan or advance by the fund on terms that the fund would not otherwise consider, indications that a borrower or issuer will enter bankruptcy or other observable data relating to a group of assets such as adverse changes in the payment status of borrowers or issuers in the group. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment is reversed through profit or loss.

Impairment losses on assets carried at amortised cost are measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the assets original effective interest rate. Impairment losses are recognised in profit or loss and reflected in an allowance account against loans and receivables. Interest on impaired assets continues to be recognised through the unwinding of the discount.

The Fund writes off financial assets carried at amortised cost when they are determined to be uncollectible.

ii. Investment Income

Dividend income relating to investments is recognised in the Profit and Loss Account on the exdividend date. Interest income on fixed and floating rate securities is accounted for on an effective interest rate basis. Income distributions from investment funds are recognised in the Profit and Loss Account as dividend income when declared. Bank Interest income is recorded on an effective yield basis.

iii. Expenses

Expenses are accounted for on an accrual basis.

iv. Cash Flow Statement Exemption

Under Financial Reporting Standard No. 1, the Company is exempt from the requirement to prepare a cash flow statement, as it complies with the conditions for open-ended investment companies.

v. Participating Shares

All participating shares issued by the Company provide the investors with the right to require redemption for cash at the value proportionate to the investor's share in the Company's net assets at the redemption date. In accordance with FRS 25, such instruments give rise to a financial liability for the present value of the redemption amount.

Notes to the Financial Statements (continued)

For the year ended 30 June 2011

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

vi. Distribution Policy

The Global Positive Return (Euro) and Global Growth Funds aim to seek capital growth rather than a significant income return. The investment objective of the Global Income Fund is to generate a high level of current income through a diversified portfolio of securities invested in the bonds, money market instruments and high yielding equities. Dividends, if declared, will only be paid out of that Fund's net investment income return (i.e. income from dividends, interest or otherwise, less its accrued expenses to be certified for the accounting period) and net realised and net unrealised capital gains and will normally be paid to shareholders in September of each year to the bank account specified by them in their application for shares.

vii. Change in Functional Currency

The Global Positive Return (Euro) Fund changed its functional currency from US\$ to Euro on 10th January 2011. For consistency of reporting, financial information relating to this Fund prior to the change in functional currency has been translated from US\$ to Euro. The prior year Profit and Loss Account has been translated using the average exchange rate between US\$ and Euro during the period from 1st July 2009 to 30th June 2010. The prior year Balance Sheet and opening balances in the Statement of Changes in Net Assets have been translated using the exchange rate quoted on 30th June 2010. Additionally, all profit and loss figures from 1st July 2010 to 10th January 2011 have been translated using the average exchange rate during that period. Details of these adjustments are shown in the Statement of Total Recognised Gains and Losses and Note 11 on pages 42.

As the presentation currency of the Company is US\$, the balances for the Positive Return (Euro) Fund have been converted to US\$ to give the aggregated Profit and Loss and Balance Sheet amounts for the Company. The Profit and Loss amounts are converted to US\$ using the average exchange rate for the year, while the Balance Sheet amounts are converted to US\$ using the foreign exchange rate quoted on 30th June 2011. The resulting foreign currency translation adjustment on aggregation is included in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares.

4 TAXATION

As the Company qualifies under Section 739B of the Taxes Consolidation Act, 1997 as an investment undertaking, the Company is not liable to income tax, capital gains tax or corporation tax on its income or gains, other than on the occurrence of a chargeable event.

A chargeable event includes any distribution to shareholders or any redemption or transfer of shares, or the ending of a 'Relevant Period'. A Relevant Period is an eight year period beginning with the acquisition of shares by the shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A chargeable event does not include:

- Any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland; or
- o An exchange of shares representing one sub-fund for another sub-fund of the Company; or
- Any exchange of shares arising on a qualifying amalgamation or reconstruction of the Company with another fund or Company.

A chargeable event will not occur in respect of shareholders who are neither resident nor ordinarily resident in Ireland and who have provided the Company with a relevant declaration to that effect.

Notes to the Financial Statements (continued)

For the year ended 30 June 2011

4 TAXATION (continued)

In the absence of an appropriate declaration, the Company will be liable to Irish tax on the occurrence of a chargeable event, and the Company reserves the right to withhold such taxes from payments to relevant shareholders. There were no chargeable events during the period under review.

Capital gains, dividends and interest may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Company or its shareholders.

5 SHARE CAPITAL

The Company has a variable share capital. On incorporation, the authorised share capital of the Company was US\$ 60,000 divided into 60,000 subscriber shares of a par value of US\$ 1 each. All subscriber shares were redeemed at par value in July 2000 and no further subscriber shares have been issued. There are in addition, 500,000,000,000 shares of no par value designated as unclassified shares. The unclassified shares are available for issue as Participating Shares. The holder of each Participating Share shall, on a vote taken on a show of hands, be entitled to one vote per holder and, on a poll, be entitled to one vote per Participating Share. Each holder is also entitled to such dividends as the Directors may from time to time declare. The number of Participating Shares in issue for each class at 30 June 2011 is noted in the table below. Participating Shares are redeemable at the shareholder's option and are classified as financial liabilities.

The rights of holder of Shares of any class shall:-

- (a) On a vote taken on a show of hands, be entitled to one vote per holder and, on a poll, be entitled to one vote per whole Share;
- (b) Be entitled to such dividends as the Directors may from time to time declare; and
- (c) In the event of a winding up or dissolution of the Company, have the entitlements.

7 RELATED PARTY TRANSACTIONS AND OTHER KEY SERVICE AGREEMENTS

Related Party Transactions

Stadia Fund Management Limited was appointed Manager on 1 April 2011. The fees of the Manager will be payable by the Company and will not exceed 2.5% per annum of the Net Asset Value of each Fund or such other amount as is set out in the relevant Supplement provided it does not exceed 2.5% per annum of the Asset Value of each Fund.

The Company will discharge the fees and out of pocket expenses of all service providers. The fees will accrue and be payable monthly in arrears out of the assets of the relevant Fund. In addition, the Company will discharge any transaction charges of the Custodian and any sub-custodian (at normal commercial rates), which will be borne directly by the relevant Fund. The Company may, at its discretion, also pay, from this amount, commissions to distributors. The Investment Manager may from time to time at its sole discretion and out of its own resources rebate to intermediaries and/or Shareholders part or all of the investment management fee.

Such fees, duties and charges will be charged to the Fund in respect of which they were incurred or, where an expense is not considered by the Directors to be attributable to any one Fund, the expense will normally be allocated to all Funds pro rata to the value of the net assets of the relevant Funds. In the case of any fees or expenses of a regular or recurring nature, such as audit fees, the

Notes to the Financial Statements (continued)

7 RELATED PARTY TRANSACTIONS (continued)

Directors may calculate such fees and expenses on an estimated figure for yearly or other periods in advance and accrue the same in equal proportions over any period.

For the period from 1st July 2010 to 31st March 2011, investment management fees of \$900,395 were paid by the Company to Prescient Investment Management (Pty) Limited, being 74% of the management fees paid by the Company for the year. From 1st April 2011 to 30th June 2011 management fees of \$318,809 (26% of total management fees) have been paid by the Company to Stadia Fund Management Limited, with Prescient Investment Management (Pty) Limited receiving investment management fees from Stadia Fund Management Limited.

During the year ended 30 June 2011 investment management fees incurred for Prescient Investment Management (pty) Limited were as follows:

	30 June 2011	30 June 2010	
Positive Return Fund	€257,610	€186,032	
Growth Fund	\$169,230	\$220,095	
Income Fund	\$379,578	\$365,132	
Total (US\$)	\$900,395	\$844,053	

During the year ended 30 June 2011 management fees incurred for Stadia Fund Management Limited (the manager) were as follows:

	30 June 2011	30 June 2010
Positive Return Fund	€90,297	-
Growth Fund	\$56,249	-
Income Fund	\$139,323	-
Total (US\$)	\$318,809	-

Management / Investment Management Fees outstanding at 30 June 2011 were as follows:

	30 June 2011	30 June 2010
Positive Return Fund	€88,413	€41,396
Growth Fund	\$30,644	\$37,218
Income Fund	\$120,789	\$92,203
Total (US\$)	\$279,419	\$180,280

Note the outstanding balance at 30 June 2010 consisted of Investment management fees payable to Prescient Investment Management (Pty) Limited.

Herman Steyn (Director's fee: €18,150) and Carey Millerd (Director's fee: nil) are Directors with Prescient Investment Management (Pty) Limited. Herman Steyn (Director's fee: nil) and Carey Millerd are also directors with Stadia Fund Management Limited (Director's fee: nil).

10 UNSETTLED TRADES

The Funds had the following unsettled trades at 30 June 2011:

Positive Return Fund:

Purchase for 3,900,000 units of ABSA Bank Ltd. 7 Year USD Inflation Linked Note 2.55% 9/6/18 for US\$3,900,000 (euro equivalent: 2,694,114), with trade date of 24 June 2011 and settlement date of 1 July 2011.

Spot foreign exchange contract to buy US\$3,900,000 (euro equivalent at 30 June 2011: 2,694,114) and sell €2,743,687, settlement date of 1 July 2011.

Payable amounts on the above trades are €2,743,687 and €2,694,114, giving a total payable at 30 June 2011 of €5,437,801. The total receivable of US\$3,900,000 is valued on 30 June 2011 at €2,694,114. Additionally the Fund had a prepaid listing fees balance of €1,342 at 30^{th} June 2011, giving a total other receivables balance of €2,695,456.

Income Fund:

Purchase for 5,000,000 units of ABSA Bank Ltd. 7 Year USD Inflation Linked Note 2.55% 9/6/18 for US\$5,000,000 with trade date of 24 June 2011 and settlement date of 1 July 2011.

Purchase for 5,000,000 units of ABSA Bank Ltd. 6 Year USD Inflation Linked Note 2.55% 20/9/17 for US\$5,000,000 with trade date of 24 June 2011 and settlement date of 1 July 2011.

Spot foreign exchange contracts to buy US\$12,000,000 and sell €8,416,741 (US\$ equivalent at 30 June 2011: 12,184,075), and to sell US\$6,000,000 versus €4,224,185 (US equivalent at 30 June 2011: 6,114,930).

Payable amounts on the above trades are 5,000,000 on each ABSA trade, 8,416,741 (US\$12,184,075) and US\$6,000,000 on the spot contracts giving a total payable balance at 30 June 2011 of US\$28,184,075.

Notes to the Financial Statements (continued)

For the year ended 30 June 2011

10 UNSETTLED TRADES (continued)

The receivable balance consists of US\$12,000,000 and €4,224,185 (US\$6,114,930). Additionally the Fund had a prepaid listing fees balance of US\$1,303 at 30th June 2011, giving a total other receivables balance of US\$18,116,233.

11 CHANGE IN FUNCTIONAL CURRENCY

All financial information relating to the Positive Return (Euro) Fund prior to 10th January 2011 has been translated from US\$ to Euro, the functional currency of the Fund.

For the year ended 30th June 2011, US\$ amounts have been translated as follows:

- Opening Balance Sheet amounts at the US\$ / € exchange rate as at 30th June 2010
- Profit and Loss and share capital movements at the average US\$ / € exchange rate from 1 July 2010 to 10th January 2011.

For the comparative figures for the year ended 30th June 2010, US\$ amounts have been translated as follows:

- All Balance sheet amounts at the US\$ / € exchange rate as at 30th June 2010
- Profit and Loss and share capital movements at the average US\$ / € exchange rate from 1 July 2009 to 30th June 2011.

Additionally, as the presentation currency of the Company is US\$, the balances for the Positive Return (Euro) Fund have been translated to US\$ in the aggregated accounts for the Company, as follows:

- Opening Balance sheet amounts at the US\$ / € exchange rate as at 30th June 2010
- Profit and Loss and share capital movements at the average US\$ / € exchange rate from 1 July 2010 to 30th June 2011.
- Closing Balance sheet amounts at the US\$ / € exchange rate as at 30th June 2011.

As a result of the varying foreign exchange rates applied to translate prior and current year profit and loss balance sheet items, as well as the impact of translating US\$ denominated assets and liabilities that had previously not incurred any foreign exchange gains or losses, an adjustment for foreign exchange translation is required in the Statement of changes in Net Assets Attributable to Holders of Redeemable Participating Shares and Statement of Total Recognised Gains and Losses.

12 DIRECTORS' FEES AND EXPENSES

The Articles of Association authorise that the Directors be entitled to a fee for remuneration of their services at a rate to be determined from time to time by the Directors. Directors Fees of US\$ 78,261 were charged for the year (30 June 2010: US\$ 51,418), of which US\$ 19,311 were due at 30 June 2011 (30 June 2010: US\$ 4,950).

13 AUDIT FEES

The audit fees for the statutory audit for the year ended 30th June 2011 were US\$ 48,731 (30 June 2010: US\$ 54,557) inclusive of Value Added Tax. Audit fees due at 30 June 2011 were US\$ 49,743 (30 June 2010: US\$ 47,366).

15 NET ASSET VALUE PER PARTICIPATING SHARE HISTORY

The net asset value per participating Share of each Fund is determined by dividing the value of the net assets of each Fund by the total number of participating Shares of each Fund in issue at that time. The net asset value per participating Share of each asset class of each Fund for the last three financial year ends is as follows:

Net Asset Value Participating Shares Net Asset Value per

As at 30 June 2011 Class A	Docitive Deturn Fund	Net Asset Value	Participating Shares	Net Asset Value per

18 SOFT COMMISSION ARRANGEMENTS

There were no soft commission arrangements affecting the Company during the year ended 30 June 2011 or the year ended 30 June 2010.

19 FINANCIAL INSTRUMENTS AND ASSOCIATED RISK

Risk Factors

The Funds' activities expose them to a variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Funds' overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Funds' financial performance. The Funds may use derivative financial instruments to moderate certain risk exposures.

The investment objectives of the Funds are to achieve a combination of long term capital growth appreciation and a high level of current income through holding a diversified portfolio of securities. The Funds' investment portfolios may consist of global equity securities, equity related securities such as investments in equities, bonds, floating rate notes, investment funds and derivatives.

Asset allocation is determined by the Funds' Investment Manager, Prescient Investment Management (Pty) Limited, who manages the distribution of the assets to achieve the investment objectives. Divergence from target asset allocations and the composition of the portfolio is monitored by the Funds' Investment Manager. In instances where the portfolio has diverged from target allocations, the Funds' Investment Manager will rebalance the portfolio to fall in line with the target asset allocations.

The nature and extent of the financial instruments outstanding at the balance sheet date and the risk management policies employed by the Funds are discussed below.

Notes to the Financial Statements (continued)

For the year ended 30 June 2011

19 FINANCIAL INSTRUMENTS AND ASSOCIATED RISK (continued)

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate. Market risk comprises three types of risk: currency risk, interest rate risk and price risk.

The Funds' strategy on the management of investment risk is driven by the individual Funds' investment objectives. These include capital preservation, long term capital growth appreciation and generation of a high level of current income depending on the Fund. The Funds' market risk is managed on a daily basis by the Investment Manager in accordance with policies and procedures in place.

Details of the Funds investment portfolio at 30 June 2011 are disclosed in the Statements of Investments on pages 77 to 92.

Currency Risk

The Funds hold assets in currencies denominated in currencies other than their functional currency. Consequently, the Funds are exposed to risks that the exchange rate of its currency relative to other foreign currencies change in a manner that has an adverse effect on the value of that portion of the Funds' assets or liabilities denominated in currencies other than the US\$ for the Growth and Income Funds, and Euro for the Positive Return Fund. The Funds' Investment Manager may, but is not obliged to mitigate this risk by using financial instruments. Note the Positive Return (Euro) Fund Changed its functional currency from US\$ to Euro, so the table below shows US\$ exposure in 2011 and EUR exposure in 2010.

The Investment Manager monitors the Funds currency exposures on a daily basis.

Positive Return Fund

19 FINANCIAL INSTRUMENTS AND ASSOCIATED RISK (continued)

Currency Risk (continued)

Sensitivity Analysis – As at 30 June 2011, had the Euro strengthened by 5% for the Positive Return Fund and the US\$ strengthened by 5% in relation to the Growth and Income Funds for all currencies, with all other variables held constant, net assets attributable to holders of redeemable shares would have decreased by the amounts shown below. The analysis is performed on the same basis for 30 June 2010. Note that the analysis at 30 June 2010 is performed in US\$ for all funds as the Positive Return Fund's functional currency was US\$.

Prescient Global Funds Plc

	2011	2010
Change in net assets	€ / US\$	US\$
Prescient Global Positive Return Fund	€104,400	\$1,530,776
Prescient Global Growth Fund	\$298,491	\$254,931
Prescient Global Income Fund	\$3,522,505	\$4,450,242

A 5% weakening of the Euro for the Positive Return Fund and a 5% weakening of the US\$ for the Growth and Income Funds against the above currencies would have resulted in an equal but opposite effect on the above financial statement amounts to the amounts shown above, on the basis that all other variables remain constant .

Actual trading results may differ from this sensitivity analysis and this difference may be material.

Interest Rate Risk

The Funds' interest bearing financial assets and liabilities expose them to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on their financial position and cash flows. Any excess cash and cash equivalents are invested at short term market interest rates.

The Funds' interest rate risk is managed on a daily basis by the Investment Manager in accordance with policies and procedures in place. Where the interest rate risks are not in accordance with the investment policy or guidelines of the Fund, the Investment Manager will rebalance the portfolio.

The tables below summarise the Funds' exposure to interest rate risk. It includes the Funds' assets and trading liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity dates.

Interest Rate Risk (continued)

Sensitivity Analysis

At 30 June 2011, should interest rates have lowered by 100 basis points with all other variables remaining constant, the increase in net assets attributable to holders of redeemable shares for the year would amount to approximately US\$ 1,726,879 (2010: US\$ 351,610). If interest rates had risen by 100 basis points, the decrease in net assets would amount to approximately US\$ 1,726,879 (2010: US\$ 351,610).

Actual trading results may differ from this sensitivity analysis and this difference may be material.

Price Risk

Price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

The Funds trade in financial instruments, including derivatives, to take advantage of market movements in bond and equity markets. The Funds may therefore invest in call or put options, forward currency contracts and financial futures within defined limits.

All investments present a risk of loss of capital. The Investment Manager moderates this risk through a careful selection of investments and other financial instruments within specified limits. The Funds' overall market positions are monitored on a daily basis by the Investment Manager.

The Funds' investments in equities, investment funds, bonds, floating rate notes and derivatives are susceptible to market price risk arising from uncertainties about future prices of the instruments. The Funds' market price risk is managed through diversification of the investment portfolio ratios by exposures.

19 FINANCIAL INSTRUMENTS AND ASSOCIATED RISK (continued)

Credit Risk

The Funds are exposed to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. Impairment provisions are provided for losses that have been incurred by the balance sheet date, if any.

The carrying amounts of financial assets best represent the maximum credit exposure at the year end date. This relates to financial assets carried at amortised cost, as they have a short-term to maturity.

All transactions in listed securities are settled/ paid upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

The Funds' manager analyses credit concentration based on the counterparty of the financial assets that the Funds hold. Details of counterparties are disclosed in the Statements of Investments on pages 77 to 92.

Substantially all of the financial instruments excluding cash balances are held by the Custodian; BNY Mellon Trust Company (Ireland) Limited. Bankruptcy or insolvency of the Custodian may cause the Funds' rights with respect to securities held by the Custodian to be delayed or limited. The Investment Manager monitors its risk by monitoring the credit quality and financial positions of the Custodian used by the Funds.

Derivative transactions give rise to counterparty credit risk exposure, as a counterparty to a financial instrument could fail to discharge an obligation or commitment that it has entered into with the Fund. The counterparties for the derivatives are Barclays Capital (Forward foreign exchange contracts and currency options) and Citibank (S&P options).

Substantially all of the cash held by the Funds is held by Citibank N.A and Standard Bank ("the Banks"). Bankruptcy or insolvency by these Banks may cause the Funds' rights with respect to the cash held by these Banks to be delayed or limited. The Investment Manager monitors this risk by monitoring the credit quality and financial positions of these Banks. If the credit quality or the financial position of the Banks deteriorates significantly the Investment Manager will move the cash holdings to another bank.

In accordance with the Funds' policies, the investment manager monitors the Funds' credit position on a daily basis.

As a result of current market conditions, the credit ratings of counterparties are subject to change and are monitored on a continuous basis by the Investment Manager.

Liquidity Risk

This is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. The Company's constitution provides for the daily creation and cancellation of shares and it is therefore exposed to the liquidity risk of meeting shareholder redemptions at any time. To meet the redemption liability the Funds may be required to sell assets. The Funds' financial instruments include investments which may not be easily liquidated at an amount close to fair value in order to meet liquidity requirements, or to respond to specific events such as deterioration in the credit worthiness of any particular issuer. The Funds' listed securities are listed on major worldwide stock exchanges.

The Funds may, from time to time, invest in derivative contracts traded over the counter, which are not traded in an organised market and may be illiquid. As a result, the Funds may not be able to

Notes to the Financial Statements (continued)

19 FINANCIAL INSTRUMENTS AND ASSOCIATED RISK (continued)

Fair values of financial assets

The Company has adopted FRS 29. This requires the Company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Directors. The Directors consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Company's financial assets and liabilities (by Fund) measured at fair value at 30 June 2011 and 30 June 2010:

	Fair Value measured on the basis of				
Prescient Global Positive Return (Euro) Fund 2011	Level 1 Active Market Data EUR€	Level 2 Observable Market Data EUR€	Level 3 Unobservable Market Data EUR€

Notes to the Financial Statements (continued)

For the year ended 30 June 2011

19 FINANCIAL INSTRUMENTS AND ASSOCIATED RISK (continued)

Fair values of financial assets (continued)

Investments, whose values are based on quoted market prices in active markets, and therefore classified within Level 1, include actively traded equities, term deposits and collective investment schemes. The Company does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include options, forward exchange contracts, floating rate notes and inflation linked bonds which are not actively traded.

Investments classified within Level 3 have significant unobservable inputs, whose prices has remained unchanged for a period of time and whose value has been considered by the Directors and the Manager.

There were no movements in Level 3 instruments for the years ended 30 June 2011 and 30 June 2010.

There were no investments categorised within Level 3 at 30 June 2011 or 30 June 2010.

Capital Management

The Company has no externally imposed capital requirements.

The Company's objectives for managing capital are:

- to invest the capital in investments meeting the description, risk exposure and expected return indicated in its prospectus;
- to achieve consistent returns while safeguarding capital by investing in accordance with its investment policy or holding cash;
- to maintain sufficient liquidity to meet the expenses of the Company; and
- to maintain sufficient size to make the operation of the Company cost-efficient.

Efficient Portfolio Management

The Company may, on behalf of each Fund, employ (subject to the conditions and within the limits laid down by the Central Bank of Ireland) techniques and instruments relating to transferable securities provided that such techniques and instruments are used for efficient portfolio management purposes which includes hedging, stock equalisation and cost control purposes or to provide protection against exchange risk. Such techniques and instruments include but are not limited to derivatives including futures, options, forward foreign exchange contracts, interest and exchange rate swaps contracts, stock lending and borrowing and repurchase and reverse repurchase agreements and/or delayed delivery securities. New techniques and instruments may be developed which may be suitable for use by the Company and the Company may (subject as aforesaid and in accordance with the requirements of the Central Bank of Ireland) employ such other techniques and instruments.

The Company is permitted to engage to a limited extent in the use of derivatives, techniques and instruments permitted for the purposes of efficient portfolio management under the conditions contained in the Central Bank's UCITS Notices.

Details of open derivative positions at 30 June 2011 are detailed in the statement of investments on pages 76 to 91.

Notes to the Financial Statements (continued)

For the year ended 30 June 2011

20 CONTINGENT LIABILITIES

As at the date of approval of these financial statements, the Directors are not aware of any contingent liability relating to the Company.

21 EXCHANGE RATES

The foreign exchange rates used in the financial statements expressed as US\$ are as follows:

	30 June 2011	30 June 2010
Australian Dollar	0.9334	0.8531
Euro	1.4476	1.2286
Japanese Yen	80.4400	88.7100
Pound Sterling	1.6008	1.5030
Canadian Dollar	0.9670	1.0489
Swedish Krona	6.3298	7.7494
Swiss Franc	0.8341	1.0810
Hong Kong Dollar	7.7832	7.7865
Singapore Dollar	1.2285	1.3948

The foreign exchange rates used in the financial statements expressed as EUR€ are as follows:

	30 June 2011	30 June 2010
Australian Dollar	1.3512	1.4556
US Dollar	0.6908	0.8172
Japanese Yen	116.43	108.22
Pound Sterling	0.9403	0.8188

22 SIGNIFICANT EVENTS DURING THE YEAR

The Custodian of the Company, PNC International Bank Limited, changed its name to BNY Mellon International Bank Limited on 5th July 2010. The custodian agreement was novated to BNY Mellon Trust Company (Ireland) Limited on 30th June 2011.

The "Prescient Global Cautious Fund" was renamed "Prescient Global Positive Return (Euro) Fund" effective from 10 January 2011. Accordingly, all references in the Prospectus of the Company to "Prescient Global Cautious Fund" have been deleted and replaced with "Prescient Global Positive Return (Euro) Fund", as referred to in the Sixth Addendum to the Prospectus.

New Class D Shares were created in all the three sub funds of Prescient Global Fund Plc, effective from 10 January 2011. The Class D Shares were listed on the Irish Stock Exchange on 6th April 2011.

On 1 April 2011, Prescient Global Funds plc. was authorised as an Undertaking for Collective Investment in Transferrable Securities (UCITS).

On 1 April 2011, Prescient Global Funds plc. changed fund administrator, registrar and transfer agent from Apex Fund Services (Ireland) Limited to Stadia Fund Management Limited. Stadia Fund Management Limited was also appointed as Manager.

Notes to the Financial Statements (continued)

For the year ended 30 June 2011

23 SUBSEQUENT EVENTS

There were no subsequent events that require disclosure in these financial statements.

24 CHANGES TO PROSPECTUS

The Sixth Addendum to the Prospectus of the Company was issued on 10th January 2011. This included the renaming of the Global Cautious Fund to the Global Positive Return (Euro) Fund. A new Prospectus was issued on 1st April 2011 detailing that the company has been authorised as a UCITS Company.

The First Addendum to the Prospectus of the Company's was issued on 30 September 2011.

There were no significant changes to the prospectus.

25 APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the Board of Directors on 18 October 2011.
