# Statement of Manager's Responsibilities For the year ended 30 June 2023

The European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations") require the Manager to prepare financial statements for each financial year, reporting the financial position of Osmosis UCITS CCF (the "CCF") as at the end of the accounting period and its income for the year.

Irish law requires the Manager to prepare financial statements for each financial year for the Sub-Fund of the CCF. Under that law, the Manager has elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRS"), (as adopted by the European Union) and the Republic of Ireland.

In preparing those financial statements, the Manager is required to:

- ensure that the financial statements comply with the Deed of Constitution and IFRS subject to any material departures which are disclosed and explained in the financial statements;
- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Fund will continue in business.

The Manager is required to keep proper accounting records and to manage the CCF in accordance with the Regulations and the Deed of Constitution. The Manager is also responsible with respect to its duties under the Regulations to take reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors of the Manager have appointed Northern Trust International Fund Administration Services (Ireland) Limited for the purpose of maintaining adequate accounting records. Accordingly, the accounting records are kept at the following address: Georges Court, 54-62 Townsend Street, Dublin 2, Ireland.

The Manager has entrusted the assets of Osmosis UCITS CCF to the Depositary for safekeeping and in this regard the Manager has appointed Northern Trust Fiduciary Services (Ireland) Limited as Depositary. The address at which this business is conducted is as follows: Georges Court, 54-62 Townsend Street, Dublin 2, Ireland.

#### **Corporate Governance Statement**

The Directors of the Manager have assessed the measures included in the voluntary Corporate Governance Code for Collective Investment Schemes as published by Irish Funds in December 2011 (the "Code"). The Directors of the Manager have adopted all applicable corporate governance practices and procedures in the Code.

Statement of Manager's Responsibilities (continued) For the year ended 30 June 2023

#### **Connected Persons**

Regulation 43 of the UCITS Regulations "Restrictions of the transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length, and b) in the best interest of the Unitholders of the UCITS".

The Directors of the Manager are satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and are satisfied that transactions with connected parties entered into during the financial year complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations set out in Regulation 43(1) of the Central Bank UCITS Regulations.

#### **REPORT OF THE DEPOSITARY TO THE UNITHOLDERS** For the year ended 30 June 2023

We, Northern Trust Fiduciary Services (Ireland) Limited, appointed Depositary to OSMOSIS UCITS CCF provide this report solely in favour of the Unitholders of the CCF for the year ended 30 June 2023 (the "Accounting Period"). This report is provided in accordance with the UCITS Regulations – European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (SI No 352 of 2011), as amended, which implemented Directive 2009/65/EU into Irish Law, (the "Regulations").

We do not, in the provision of this report, accept nor assume responsibility for any other purpose or person to whom this report is shown.

In accordance with our Depositary obligation as provided for under the Regulations, we have enquired into the conduct of the CCF for this Accounting Period and we hereby report thereon to the Unitholders of the CCF as follows.

We are of the opinion that the CCF has been managed during the accounting period, in all material respects:

(i) in accordance with the limitations imposed on the investment and borrowing powers of the Manager by the constitutional documents and by the Regulations; and

(ii) otherwise in accordance with the provisions of the constitutional document and the Regulations.

# INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF OSMOSIS RESOURCE EFFICIENT CORE EQUITY (EX-FOSSIL FUELS) FUND, A SUB-FUND OF OSMOSIS UCITS CCF

#### Report on the audit of the financial statements

#### Opinion

We have audited the financial statements of Osmosis Resource Efficient Core Equity (Ex-fossil fuels) Fund (the "sub-fund"), a sub-fund of Osmosis UCITs CCF ('the Fund') for the year ended 30 June 2023, which comprise the Statement of Financial Position, Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Unitholders, Statement of Cash Flows and notes to the financial statements, including the summary of significant accounting policies set out in note 2. The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

In our opinion the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the sub-fund as at 30 June 2023 and of its profit for the year then ended;
- have been properly prepared in accordance with IFRS as adopted by the European Union; and
- the financial statements have been properly prepared in accordance with the requirements of the Investment Funds, Companies and Miscellaneous Provisions Act 2005 (the "Act"), the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the sub-fund in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Conclusions relating to going concern

In auditing the financial statements, we have concluded that the manager's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the sub-fund's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the manager with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the sub-fund's ability to continue as a going concern.

#### INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF OSMOSIS RESOURCE EFFICIENT CORE EQUITY (EX-FOSSIL FUELS) FUND, A SUB-FUND OF OSMOSIS UCITS CCF (CONTINUED)

#### Other information

The manager is responsible for the other information. The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

#### **Respective responsibilities**

#### Responsibilities of manager for the financial statements

As explained more fully in the statement of manager's responsibilities set out on pages 3 and 4, the manager is responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

#### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA's website at: <u>http://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description of auditors responsibilities for audit.pdf</u>.

This description forms part of our auditor's report.

#### INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF OSMOSIS RESOURCE EFFICIENT CORE EQUITY (EX-FOSSIL FUELS) FUND, A SUB-FUND OF OSMOSIS UCITS CCF (CONTINUED)

#### The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the sub-fund's unitholders, as a body, in accordance with section 18 of the Investment Funds, Companies and Miscellaneous Provisions Act 2005 and Regulation 93 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011. Our audit work has been undertaken so that we might state to the sub-fund's unitholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Fund and the sub-fund's unitholders, as a body, for our audit work, for this report, or for the opinions we have formed.

INVESTMENT MANAGER'S REPORT – Osmosis Resource Efficient Core Equity (Ex-fossil fuels) Fund

Osmosis Resource Efficient Core Equity (Ex-fossil fuels) Fund

Fund Inception Date: 19th Feb 2021

Fund Size: USD 341,368,690.66

Portfolio Manager: Robbie Parker

Fund Benchmark: MSCI World

#### Performance Table:

(Monthly Data)	Month	Quarter	Year to Date	Since Inception
Fund	5.90%	6.73 %	15.54%	13.58%
Benchmark (MSCI World)	6.05%	6.83%	15.09%	13.02%

Performance Comment:

Performance Summary

The Osmosis Resource Efficient Core Equity (Ex – Fossil Fuels) Fund returned 18.37%, underperforming the MSCI World by 0.14% net of fees during the year.

The Fund had some positive active return coming from common factor exposures within the year. The underweight exposure to oil and gas industries helped over this period, adding 0.13% (gross) over the period. Furthermore, the underweight to utilities and overweight to steel added 0.14% and 0.12% (gross)

Most of the underperformance came during the last quarter, reflecting the unfavourable environment for Resource Efficient companies. The stock-specific factor is the targeted risk factor as the Core Equity (ex-fossil fuels) Fund isolates companies' resource-efficient characteristics from traditional common factor characteristics.

All three regions detracted from active return. The industrials exposure within North America contributed 0.20% (gross) active return whereas the ex-energy exposure detracted -0.31% (gross). The EMEA region had a positive contribution from the financials stocks in the region, adding 0.15% (gross). However, the industrials exposure detracted -0.13% (gross). Within APAC, the health care exposure added returns of 0.07% (gross) whilst consumer discretionary detracted, -0.05% (gross).

#### Macro Overview

Developed equity markets performed well in the second quarter of 2023, largely due to a strong rebound in US tech-growth stocks as investors took a view that artificial intelligence would be the next growth story. As a result, North America was the best performing region over the quarter. There were continuing signs, especially from the US, that the world economy would avoid a hard recession. The

INVESTMENT MANAGER'S REPORT – Osmosis Resource Efficient Core Equity (Ex-fossil fuels) Fund (continued)

#### Macro Overview (continued)

rapid rise of US interest rates to combat inflation appeared to have a less severe effect on the unemployment rate than predicted, and with inflation showing signs of cooling, the Fed was able to announce a pause in their hiking cycle. However, inflation remained stubbornly high in the UK and relatively high in the Eurozone which led both economies to further raise rates as they tried to balance the fight against inflation with the increased borrowing costs on households. This led to European markets underperforming the MSCI World over the quarter. In Japan, the stock market was buoyed by a weakening yen which proved appealing to investors when compared to the tighter rates in Europe and the UK. In contrast, Asia Pacific ex-Japan delivered negative returns as slowing growth continued to concern investors. The MSCI World Index was up 6.83% over the year. Oil price movements were rather muted in the quarter as they stayed in a relatively narrow band. The high price at the start of the quarter gradually fell and a bumpy period ensued as fears of an economic slowdown and weaker demand from China kept prices at bay. With the fight against inflation not over, and the potential for even more rate hikes in some economies, the demand fears have driven the sentiment around prices rather than the OPEC+ supply cuts.

#### Performance Attribution

The daily annualised volatility of the Fund was higher than the benchmark, whilst having an ex-post beta of 1.03 relative to the MSCI World. The Fund exhibited a positive upside but negative downside capture ratio. At the end of the quarter, the ex-ante active risk of the Fund was 1.10%, with 61.87% attributable to the stock-specific idiosyncratic factor. The remaining 38.13% of the exante active risk was attributable to traditional common factor exposures, of which the industry factor accounted for the majority, at 34.10%, due to the exclusion of the fossil fuel exposed companies. Attributing the active return of the Fund relative to the MSCI World, the common factor exposures were flat for the quarter. While currency and country factors replicated those exposures within the benchmark, the industry factor provided some positive performance for the quarter. As one would expect in a month of muted energy prices, an underweight exposure to oil and gas companies added 0.11% (gross). There were some detractions from the style factors as a slight overweight to residual volatility and underweight to size detracted -0.03% (gross, respectively) from performance.

The strategy innovation comes from Osmosis' ability to target alpha by reweighting the remaining portfolio post-fossil fuel exclusion to resource-efficient companies while controlling for and mitigating the industry bet that occurs through excluding fossil fuel-related companies. This quarter, the Fund's positive exposure to the health care sector added to the returns of the ex-fossil fuel exposures while the overweight position in chemicals detracted from the industry return.

The stock-specific/idiosyncratic factor was a negative contributor, generating -0.12% (gross) of active return. The stock-specific factor is the targeted risk factor as the Osmosis Resource Efficient Core Equity (ex-fossil fuels) Fund isolates companies resource-efficient characteristics from traditional common factor characteristics.

The Fund's North American and EMEA allocation was negative for performance over the quarter, whereas the APAC region was flat. The allocation towards North American IT companies was beneficial as the sector returned 0.60% active return (gross). An active weight in Meta Platforms Inc. (US) led to a gain of 0.22% (gross) as the US mega-tech rally benefited the stock with investor excitement on artificial intelligence pushing prices higher.

The Fund's consumer discretionary allocation in the North American region led to a detraction of - 0.28% (gross). The underweight position in Amazon Inc. (US) detracted -0.11% (gross).

INVESTMENT MANAGER'S REPORT – Osmosis Resource Efficient Core Equity (Ex-fossil fuels) Fund (continued)

Performance Attribution (continued)

The advancement of AI in the quarter would be good news for the demand for the Amazon Web Services business, as it should drive a higher demand for its computing power and cloud storage offerings.

The EMEA region provided -0.12% (gross) active return in the quarter, with -0.12% (gross) coming from the materials sector. The overweight exposure to Anglo American Plc (GBR) reduced returns by -0.04% (gross). Producers of metals and raw materials had a poor quarter, as strong labour data provoked concern that inflation would stimulate further rate hikes which could cause a slowdown in economic activity in the future. In contrast, the consumer discretionary sector in the EMEA region added 0.12% (gross). BMW (GER) shares rose by 21% during the quarter after it reported strong sales growth in China. This was driven by strong demand for the company's electric vehicles, which are particularly popular in China. In addition, BMW also announced a share buyback worth €2 Billion.

The APAC region was flat from a performance perspective. The communication services sector added 0.12% (gross) as the Fund's exposure to Nintendo Co Ltd. (JPN) added 0.09% (gross).

The share price rose to the highest level since April 2022 as the company announced new Super Mario games for the Nintendo Switch and rose with the Japanese equity market. The IT sector in the region

detracted -0.08% (gross) from the active return, however. The underweight exposure to Tokyo Electron Ltd. (JPN) reduced performance by -0.02% (gross). The chip stock indexes hit record highs as Micron Technology (US) said it plans to invest up to \$500 billion yen in gamma process technology in the region. A large percentage of the equipment used in its Hiroshima fabrication plant is produced by Japanese companies such as Tokyo Electron.

The investments set forth above should not be considered a recommendation to buy or sell any specific securities. There can be no assurance that such investments will remain in the strategy.

Performance attribution is calculated on an individual security basis and, therefore, gross of fees and expenses. Past performance is not an indication of future performance.

The upside/downside-market capture ratio is a statistical measure of an investment manager's overall performance in up/down markets. It is used to evaluate how well an investment manager performed relative to an index during periods when that index has either risen or dropped.

Fund Activity

There were no significant changes within the Fund during the year.

ESG

SFDR Classification - Article 8.

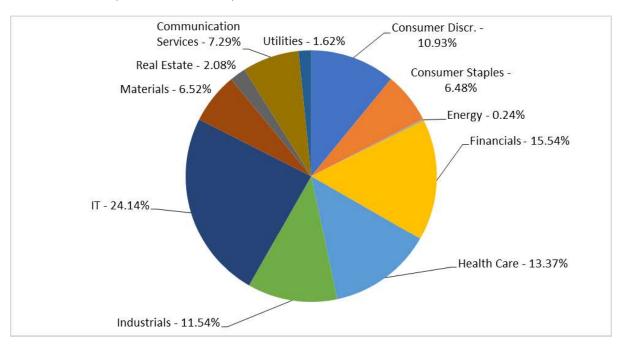

Sustainability Risks and opportunities are at the core of the Fund's strategy. The Investment Manager uses its MoRE Model to attribute Resource Efficiency Factor Scores to each company within the Fund's investment universe. This allows the Investment Manager to select resource efficient public

INVESTMENT MANAGER'S REPORT – Osmosis Resource Efficient Core Equity (Ex-fossil fuels) Fund (continued)

Performance Attribution (continued)

companies for investment. By gaining exposure to such resource efficient public companies, the Investment Manager seeks to reduce Sustainability Risks to the Fund.

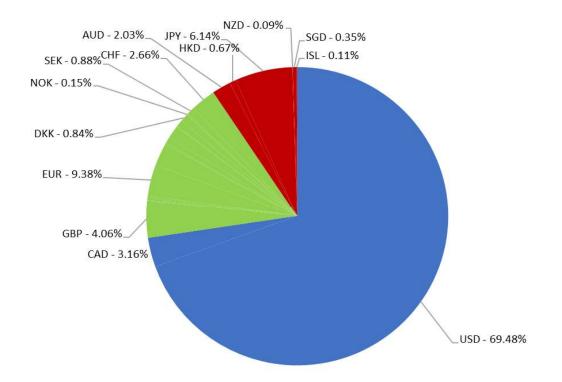

The Investment Manager's investment thesis is that companies that derive greater economic value relative to their natural resource consumption will be rewarded by the market over the long-term. It believes the Resource Efficiency Factor Scores allow it to identify target companies who have best adapted their businesses to future Sustainability Risks and which will financially thrive relative to their same sector peers. The Investment Manager does not see sustainability as a risk, but ultimately an opportunity to enhance financial returns.

Sector Allocation (as of 30 June 2023):

Cash paid for withholding tax		(719,541)	(641,557)
		5,099,881	3,760,043

#### NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023

#### 1. Background to the Fund

Osmosis UCITS CCF (the "Fund") was authorised in Ireland on 21 December 2020 and commenced operations on 19 February 2021 as an open-ended umbrella common contractual fund with segregated liability among its sub-funds authorised by the Central Bank of Ireland as a UCITS pursuant to the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011 (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"). and is constituted by a deed of constitution as supplemented, which is governed by the laws of Ireland (the "Deed of Constitution").

As at the date of this report the CCF comprised of one active Sub-Fund:

- Osmosis Resource Efficient Core Equity (Ex-fossil fuels) Fund (the "Sub-Fund")

Neither the CCF nor the Fund is an incorporated entity and neither the Fund nor the Sub-Fund has a separate legal personality. Instead, the Fund is a form of undivided co-ownership that the eligible investors who acquire units, and become Unitholders in a Sub-Fund, will have in relation to the property of the relevant fund and the income that is derived from such property.

#### Investment objective and policy

#### Osmosis Resource Efficient Core Equity (Ex-fossil fuels) Fund

The investment objective of the Sub-Fund is to provide investors with capital appreciation over the medium to long term and to outperform the Benchmark (the MSCI World Developed Index or such other appropriate benchmark as may be disclosed to investors in the Fund's periodic reports).

The Sub-Fund will aim to achieve its objective through active exposures to equity securities of resource efficient public companies. Resource efficient public companies are those companies which use less fossil-fuel based energy per unit of revenue than their sector peers, use less water per unit of revenue than their sector peers and create less landfill, incinerated and recycled waste per unit of revenue than their sector peers (as determined by the MoRE Model). The Sub-Fund will typically invest, subject to the investment restrictions set out in Appendix 1 to the Prospectus, between 90% and 100% of its NAV in company shares and will hold a broad spread of equity investments from a broad range of economic sectors worldwide excluding those directly involved within the fossil fuels industry.

In relation to investment in equity securities, typically 90% of the Net Asset Value of the Sub-Fund will be listed or traded on a Recognised Exchange.

The Sub-Fund may also invest up to 10% of its Net Asset Value in cash equivalents (such as money market funds (notably collective investment schemes) and money market instruments, including, but not limited to, certificates of deposit, fixed or floating rate notes and fixed or variable rate commercial paper (which are considered investment grade or above as rated by the principal rating agencies)) issued by governments and/or corporations and in cash deposits denominated in such currency or currencies as the Investment Manager may determine.

#### NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

#### 2. Principal Accounting Policies

#### Statement of compliance

These audited financial statements for the year ended 30 June 2023 have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union ("IFRS") and interpretations adopted by the International Accounting Standards Board ("IASB") 2022, and with the requirements of the Irish Collective Asset-management Vehicles Act 2015 and pursuant to the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 as amended (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019, as amended (the "Central Bank UCITS Regulations").

#### Basis of preparation

i. Standards, amendments and interpretations that are issued and effective for financial year beginning on or after 1 July 2022.

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 July 2022 that have a material effect on the financial statements of the Fund.

ii. New standards, amendments and interpretations issued but not yet effective for financial year beginning on or after 1 July 2022 and have not been early adopted.

A number of new standards, amendments to standards and interpretations are issued but not yet effective for annual periods beginning after 1 July 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

The preparation of financial statements in conformity with IFRS requires the use of certain critical estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting year. Actual results ultimately may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the financial year in which the estimate is revised if the revision affects only that year or in the year of the revision and future periods if the revision affects both current and future periods.

All references to Net Assets throughout this document refer to Net Assets Attributable to Holders of Redeemable Participating Units, unless otherwise stated.

The financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business. The Directors have considered all factors such as the financial and operating performance of the Sub-Fund, nature of the assets and liquidity of portfolio, investor concentration and pipeline of the Sub-Fund which contribute to the Sub-Fund's ability to continue as a going concern. The Directors are satisfied that, for a period of at least twelve months from the date of approving the financial statements, it is appropriate to adopt the going concern basis in preparing the financial statements of the Sub-Fund.

#### NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

#### 2. Principal Accounting Policies (continued)

#### Statement of compliance (continued)

The presentation and functional currency of the Sub-Fund is United States dollar ("US\$").

#### Estimates and Judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expense. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances the result of which forms the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources.

Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised, if the revision affects only that year, or the year of the revision and the future period if the revision affects both current and future periods.

Uncertainties exist with respect to the interpretation of complex tax regulations and changes in tax laws on foreign withholding tax. Given the wide range of international investments, differences arising between the actual investment income and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax expense already recorded. The Sub-Fund establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which it invests. The amounts of such provisions are based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective investment's domicile. As the Sub-Fund assesses the probability for litigation and subsequent cash outflow with respect to taxes as remote, no contingent liability has been recognised.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are outlined below.

#### (a) Fair value of derivative financial instruments

The Sub-Fund may hold derivative financial instruments that are not quoted in active markets, such as over-the-counter derivatives. Fair values of such instruments are determined by using valuation techniques. Where valuation techniques (for example, models) are used to determine fair values, they are validated and periodically reviewed by experienced personnel at Prescient Fund Services (Ireland) Limited (the "Manager") and Northern Trust International Fund Administration Services (Ireland) Limited (the "Administrator"), independent of the party that created them.

## (b) Fair value of securities not quoted in an active market

The fair value of such securities not quoted in an active market may be determined by the Sub-Fund using reputable pricing sources (such as pricing agencies) or indicative prices from market makers. Broker quotes as obtained from the pricing sources may be indicative price to represent fair value.

The Sub-Fund would exercise judgement on the quantity and quality of pricing sources used. Where no market data is available, the Sub-Fund may value positions using their own models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. The models used to determine fair values are validated and periodically reviewed by experienced personnel at the Administrator, independent of the party that created them. Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty); volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

#### NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

#### 2. Principal Accounting Policies (continued)

#### Estimates and Judgements (continued)

The determination of what constitutes observable requires significant judgement by the Sub-Fund. The Sub-Fund considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

#### Functional currency translation

#### *(i)* Functional and presentation currency

Amounts included in the Sub-Fund's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). The functional currency for the Sub-Fund is US\$ as the currency of the issued units and the majority of the investments are in US equities.

#### (ii) Transactions and balances

Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within net realised and change in unrealised gain/(loss) on financial assets and liabilities at fair value through profit or loss.

Transactions in foreign currencies are translated into the functional currency at the foreign currency exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated to US\$ at the foreign currency closing exchange rate ruling at the Statement of Financial Position date. Foreign currency exchange differences arising on translation and realised gains and losses on disposals or settlements of monetary assets and liabilities are recognised in the Statement of Comprehensive Income. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to US\$ at the foreign currency exchange rates ruling at the dates that the values were determined.

#### Investments at fair value

#### Financial Assets and Liabilities at Fair Value through Profit or Loss

#### (A) Financial instruments

#### (i) Classification, Recognition and Derecognition

In accordance with IFRS 9, the Sub-Fund classifies its financial assets and financial liabilities at initial recognition into the categories of financial assets and financial liabilities discussed below. In applying that classification, a financial asset or financial liability is considered to be held for trading if:

- (a) it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term; or
- (b) on initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which, there is evidence of a recent actual pattern of short-term profit-taking; or
- (c) it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

Financial Assets & Liabilities are recognised on trade date - the date on which sub-fund commits to purchase or sell - financial assets or liabilities.

NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

2. Principal Accounting Policies (continued)

Investments at fair value (continued)

Financial Assets and Liabilities at Fair Value through Profit or Loss (continued)

(A) Financial instruments (continued)

#### (i) Classification, Recognition and Derecognition (continued)

#### **Financial assets**

The Sub-Fund classifies its financial assets as subsequently measured at amortised cost or measured at fair value through profit or loss on the basis of both:

- The entity's business model for managing the financial assets
- The contractual cash flow characteristics of the financial asset

#### Financial assets measured at amortised cost

A debt instrument is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Sub-Fund includes in this category short-term non-financing receivables including margin cash posted on derivative contracts, accrued income and other receivables.

Financial assets measured at fair value through profit or loss (FVPL)

A financial asset is measured at fair value through profit or loss if:

- (a) its contractual terms do not give rise to cash flows on specified dates that are solely payments of principal and interest (SPPI) on the principal amount outstanding; or
- (b) it is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell; or
- (c) at initial recognition, it is irrevocably designated as measured at FVPL when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

2. Principal Accounting Policies (continued)

Investments at fair value (continued)

Financial Assets and Liabilities at Fair Value through Profit or Loss (continued)

#### (A) Financial instruments (continued)

#### (i) Classification, Recognition and Derecognition (continued)

#### Financial assets (continued)

The Sub-Fund includes in this category:

- Equity instruments: Included within equity instruments are investments in subsidiaries and associates:
  - Investment in subsidiaries: in accordance with the exception under IFRS 10, the Sub-Fund does not consolidate subsidiaries in the financial statements unless the subsidiary is not itself an investment entity and its main purpose and activities are providing services that relate to the Sub-Fund's investment activities. The Sub-Fund has no consolidated subsidiaries. The Sub-Fund measures unconsolidated subsidiaries (including loans to subsidiaries) at FVPL.
- Debt instruments. These include investments that are held under a business model to manage them on a fair value basis for investment income and fair value gains.
- Instruments held for trading. This category includes equity instruments and debt instruments which are acquired principally for the purpose of generating a profit from short-term fluctuations in price. This category also includes derivative contracts in an asset position.

#### **Financial liabilities**

Financial liabilities measured at fair value through profit or loss (FVPL)

A financial liability is measured at FVPL if it meets the definition of held for trading.

The Sub-Fund includes in this category, derivative contracts in a liability position and equity and debt instruments sold short since they are classified as held for trading. The Sub-Fund also includes its redeemable units in this category and the Sub-Fund's accounting policy regarding the redeemable participating units is described in Note 8.

#### Financial liabilities measured at amortised cost

This category includes all financial liabilities, other than those measured at fair value through profit or loss. The Sub-Fund includes in this category future contracts.

#### Derecognition

The Sub-Fund derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Sub-Fund neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. The Sub-Fund derecognises a financial liability when its contractual obligations are discharged, cancelled or expired.

On derecognition of a financial asset or liability, the difference between the carrying amount and consideration is recognised in the Statement of Comprehensive Income.

NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

2. Principal Accounting Policies (continued)

Investments at fair value (continued)

Financial Assets and Liabilities at Fair Value through Profit or Loss (continued)

(A) Financial instruments (continued)

#### (ii) Measurement

Financial instruments are measured initially at fair value (transaction price) plus in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately, while on other financial instruments they are amortised.

Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income in the period in which they arise.

Financial assets classified as loans and receivables are carried at amortised cost using the effective interest rate method, less impairment, if any.

Financial liabilities, other than those at fair value through profit or loss, are measured at amortised cost.

#### (iii) Fair Value Measurement Principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the reporting date.

Securities which are quoted, listed or traded on a Recognised Exchange will be valued at the last traded price on the principal exchange or market (or if the last traded price is not available, at midmarket prices). Where a security is listed or dealt in on more than one Recognised Exchange the relevant exchange or market shall be the principal stock exchange or market on which the security is listed or dealt on or the exchange or market which the Responsible Person determine provides the fairest criteria in determining a value for the relevant investment. Securities listed or traded on a Recognised Exchange, but acquired or traded at a premium or at a discount outside or off the relevant exchange or market may be valued by a competent person, firm or corporation (including the Investment Manager) selected by the Responsible Person and approved for the purpose by the depositary, taking into account the level of premium or discount at the Valuation Point provided that the depositary shall be satisfied that the adoption of such a procedure is justifiable in the context of establishing the probable realisation value of the security. As at 30 June 2023 there were no such securities held by the Sub-Fund.

The value of any security which is not quoted, listed or dealt in on a Recognised Exchange or which is so quoted, listed or dealt but for which no such quotation or value is available or the available quotation or value is not representative of the fair market value shall be the probable realisation value as estimated with care and good faith by:

- (i) the Responsible Person; or
- (ii) a competent person, firm or corporation (including the Investment Manager) selected by the Responsible Person and approved for the purpose by the depositary; or
- (iii) any other means provided that the value is approved by the depositary.

NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

2. Principal Accounting Policies (continued)

Investments at fair value (continued)

Financial Assets and Liabilities at Fair Value through Profit or Loss (continued)

## (A) Financial instruments (continued)

## (iii) Fair Value Measurement Principles (continued)

Where reliable market quotations are not available for fixed income securities the value of such securities may be determined using matrix methodology compiled by the Responsible Person or a competent person appointed by the Responsible Person and approved by the depositary whereby such securities are valued by reference to the valuation of other securities which are comparable in rating, yield, due date and other characteristics.

Management considers the Net Asset Value of underlying funds to be representative of fair value as they can be traded at this value. Fair values for unquoted equity investments are estimated, if possible, using applicable price / earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

#### (iii) Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously.

#### (iv) Dividend and interest income

Dividend income relating to investments is recognised in profit or loss in the Statement of Comprehensive Income on the ex-dividend date. Interest income on fixed and floating rate notes is accounted for on an effective interest rate basis. Income distributions from investment funds are recognised in profit or loss in the Statement of Comprehensive Income as dividend income when declared. Dividend income is shown gross of any irrecoverable withholding taxes, which are disclosed separately in the profit and loss account, and net of any tax credits.

#### (v) Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks and other shortterm investments in an active market with original maturities of three months or less and bank overdrafts. If applicable, bank overdrafts are shown as a liability in the Statement of Financial Position.

#### Margin cash

Cash collateral provided by the Sub-Funds to a counterparty in relation to contracts for differences, equity swaps and credit default swaps are identified in the Statement of Financial Position as margin cash. Cash pledged as collateral for financial derivative instrument transactions is not included as a component of cash and cash equivalents in the Statement of Financial Position and is not available to the Sub-Funds on demand. Margin cash is valued at amortised cost plus accrued interest. The initial margin is the percentage of a purchase price that must be paid with cash using a margin account. The variation margin also known as the mark to market margin is the additional amount of cash that the Company is required to deposit with the clearing house to meet the minimum margin requirement.

#### Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are recognised initially at amortised cost plus transaction costs that are directly attributable to their acquisition and subsequently measured at amortised cost.

#### NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

#### 2. Principal Accounting Policies (continued)

#### Payables

Payables are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method.

#### **Distribution policy**

The Directors of the Manager may, if it thinks fit, declare and pay such Gross Income Payments in respect of any units in the Sub-Fund as appear to the Directors of the Manager to be justified with respect to any sub-fund or class. The Directors or Manager may, in its absolute discretion, differentiate between the units in any sub-fund and units in the unit class within the same sub-fund as to the Gross Income Payment declared on such units. The Directors of the Manager shall have the absolute right to decide whether a Gross Income Payment shall be made or not.

The Unitholders are absolutely entitled to the income of the relevant sub-fund as it arises. The Gross Income Payment policy for each sub-fund shall be set out in the Supplement to the Prospectus. Distributions for the year for the Sub-Fund amounted to US\$Nil (30 June 2022: US\$Nil).

#### Units

Units are redeemable at the Unitholder's option and are classified as liability. In accordance with IFRS, a determination is made on the classification of these units as to whether to treat as equity or liability. This determination is made at a sub-fund level. Single class sub-funds are treated as equity as they represent residual interest in the assets of the sub-fund after deducting all liabilities and multiclass sub-funds are treated as liability as no single unit class has such residual interest. As the Sub-Fund has no more than one share class the Sub-Fund's units are treated as equity.

A puttable financial instrument that includes a contractual obligation for the Sub-Fund to repurchase or redeem that instrument for cash or another financial asset is classified as equity if it meets all of the following conditions:

- It entitles the holder to a pro rata unit of the sub-fund's net assets in the event of the sub-fund's liquidation;
- It is in the class of instruments that is subordinate to all other classes of instruments;
- All financial instruments in the class of instruments that is subordinate to all other classes of instruments have identical features;
- Apart from the contractual obligation for the sub-fund to repurchase or redeem the instrument for cash or another financial asset, the instrument does not include any other features that would require classification as a liability; and
- The total expected cash flows attributable to the instrument over its life are based substantially on the profit or loss, the change in the recognised net assets or the change in the fair value in the recognised and unrecognised net assets of the sub-fund over the life of the instrument.

As at 30 June 2023, the Sub-Fund has one class of redeemable participating units in issue, which is redeemable at the holder's option. Such units are classified as equity. Units can be put back to the Sub-Fund at any dealing date for cash equal to a proportionate share of the Sub-Funds' net asset value attributable to the unit class.

Units are issued and repurchased at the holder's option at prices based on the sub-fund's Net Asset Value per unit at the time of issue or repurchase. The Sub-Fund's Net Asset Value per unit is calculated by dividing the net assets attributable to the Unitholders by the total number of outstanding units in the class.

The Sub-Fund issues one class of unit, which is redeemable at the holder's option. Such units are classified as equity. Units can be put back to the Sub-Fund at any dealing date for cash equal to a proportionate share of the Sub-Funds' net asset value attributable to the unit class.

#### NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

#### 2. Principal Accounting Policies (continued)

#### Operating expenses

The Sub-Fund is responsible for all normal operating expenses including audit fees, stamp and other duties and charges incurred on the acquisition and realisation of investments. Osmosis Investment Management UK Limited ("the Investment Manager") meets all other operating expenses incurred by it in connection with its services. Expenses are accounted for on an accruals basis.

#### Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

#### Taxation

The CCF is a common contractual fund as defined in Section 739I(1) of the Taxes Consolidation Act (the "TCA") in which the Unitholders by contractual arrangement participate and share in the property of the CCF as co-owners. The CCF is transparent for Irish tax purposes and does not have a separate legal personality. Section 739I of the Taxes Act provides that a common contractual fund shall not be chargeable to tax in respect of its relevant income and relevant gains. Instead, the relevant income and relevant gains of the common contractual fund shall be treated as arising, or as the case may be, accruing to each Unitholder of the common contractual fund in proportion to the value of the units beneficially owned by the Unitholder, as if the relevant income and relevant gains had arisen or as the case may be, accrued, to the Unitholders in the common contractual fund without passing through the hands of the common contractual fund.

This tax treatment is subject to each of the units of the common contractual fund:

- being an asset of a pension fund or being beneficially owned by a person other than an individual,
- or being held by an Intermediary, sub-custodian or trustee for the benefit of a person other than an individual.

Dividends and interest and capital gains on securities issued in countries other than Ireland may be subject to taxes including withholding taxes imposed by such countries. The CCF may not benefit from a reduction in the rate of withholding tax by virtue of the double taxation agreements in operation between Ireland and other countries. Consequently, the CCF may not be able to reclaim withholding tax suffered by it in particular countries.

#### Establishment costs

Fees and expenses relating to the establishment and organisation of the Sub-Fund, including the fees of the Sub-Fund's professional advisers and registering the units are written off in full in the first accounting period of the Sub-Fund in accordance with the requirements of IFRS. This differs from the treatment set out in the Prospectus of the Sub-Fund, which is to amortise the establishment expenses over the first five accounting periods of the Sub-Fund.

#### Realised and unrealised gains and losses

Net gains and losses from financial instruments at fair value through profit or loss includes all realised and unrealised fair value changes and foreign exchange differences, but excludes interest and dividend income, which are presented separately.

Net realised gains from financial instruments at fair value through profit or loss are calculated using the average cost method.

#### NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

#### 2. Principal Accounting Policies (continued)

#### Forward Currency Contracts

The unrealised gain or loss on open forward foreign exchange contracts, if any, is calculated by reference to the difference between the contracted rate and the rate to close out the contract. Unrealised gains and losses are included in the Statement of Financial Position. Realised gains or losses, which are recognised on the maturity of a contract, include net gains on contracts which have been settled or offset by other contracts. Realised gains or losses and changes in unrealised gains or losses are recognised in the Statement of Comprehensive Income.

#### **Futures Contracts**

Futures contracts are valued at the quoted daily settlement prices established by the exchange on which they trade. The Sub-Fund and the broker agree to exchange an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are known as "variation margin". For open futures, changes in the value of the contract are recognised as unrealised profits or losses by "marking-to-market" the value of the contract at Statement of Financial Position date.

#### 3. Fees and Expenses

#### Management fee

The Manager shall be entitled to receive out of the assets of the Sub-Fund (i) a monthly fee, exclusive of VAT (if applicable) of USD 5,000, which is accrued daily and payable monthly (the "Fixed Component") plus (ii) an annual management fee as detailed in the table below, accrued and calculated at each Valuation Point (the "Variable Component").

Net Asset Value	Annual Management Fee Rebate
From USD 0 to USD 250 million	0.020%
From and above USD 250 million	0.015%

The Manager is entitled to increase its fees per annum up to a maximum of 2.00% of the Net Asset Value attributable to each Class. Unitholders will be notified in writing in advance of any proposed increase of such fees up to such maximum.

The Manager shall be further entitled to be repaid out of the assets of the Sub-Fund all of its reasonable and properly vouched out-of-pocket expenses, plus VAT, if any, thereon, incurred by it in respect of the Sub-Fund in the performance of its duties and responsibilities.

The Manager may rebate all or part of its Management Fees to any Unitholder, it being acknowledged that such rebate, if any, may differ between Unitholders and that the Manager will have ultimate discretion in this matter.

A non-exhaustive list of criteria for the consideration of such rebates may be initial offer period subscriptions, size of investment and prior relationship with the Unitholder.

All fees charged by the Manager are disclosed separately in the Statement of Comprehensive Income. Management fees charged for the year ended 30 June 2023 were US\$111,003 (30 June 2022: US\$113,309) of which US\$29,447 was due to the Manager as at 30 June 2023 (30 June 2022: US\$27,503).

#### NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

#### 3. Fees and Expenses (continued)

#### **Investment Management fee**

Osmosis Investment Management UK Limited (the "Investment Manager") shall be entitled to receive out of the assets of the Sub-Fund the following annual fee, together with any VAT, if applicable, in respect to each Class. The fee payable to the Investment Manager will be calculated and accrued daily based on the daily Net Asset Value of the relevant Class and will be paid monthly in arrears.

#### Class Investment Management Fee\*

Class A	0.10% of the Net Asset Value attributable to Class A Units
Class B	0.25% of the Net Asset Value attributable to Class B Units
Class C	0.30% of the Net Asset Value attributable to Class C Units
Class D (Hedged)	0.25% of the Net Asset Value attributable to Class D Units

\*As at 30 June 2023 Class A was the only active Class.

The Investment Manager is entitled to increase its annual fees up to a maximum of 2.00% per annum of the Net Asset Value attributable to each Class. Unitholders will be notified in writing in advance of any proposed increase of such fees up to such maximum.

The Investment Manager may rebate all or part of its investment management fees to any Unitholder, it being acknowledged that such rebate, if any, may differ between Unitholders and that the Investment Manager will have ultimate discretion in this matter. A non-exhaustive list of criteria for the consideration of such rebates may be initial offer period subscriptions, size of investment and prior relationship with the Unitholder.

All fees charged by the Investment Manager are disclosed separately in the Statement of Comprehensive Income. Investment Management fees for the year ended 30 June 2023 were US\$261.006 (30 June 2022; US\$273.528) of which US\$95.518 was due to the Investment Manager as at 30 June 2023 (30 June 2022: US\$19,766).

#### Administrator fee

Northern Trust International Fund Administration Services (Ireland) Limited (the "Administrator") shall be entitled to receive out of the assets of the Sub-Fund, an annual fee which (plus VAT, if any) as detailed in the table below, is accrued and calculated at each Valuation Point and payable monthly in arrears, subject to a minimum annual fee of EUR60,000.

Fund Administration Fee per Annum Net Asset Value US\$0 to US\$250 million 0.04% Net Asset Value US\$250 million to US\$500 million 0.03% In excess of US\$500 million 0.02%

The Administrator shall also be compensated out of the assets of the Sub-Fund for other services, including inter alia transfer agency services, account maintenance, unit currency hedging facilities, preparation of financial statements of the Sub-Fund, registration and transaction fees, each of which shall be at normal commercial rates together with VAT, if any, thereon. The Administrator shall also be entitled to reimbursement of all reasonable and vouched out-of-pocket expenses (plus any applicable taxes) it incurs out of the assets of the Sub-Fund.

Administrator fees incurred by the Sub-Fund are disclosed separately in the Statement of Comprehensive Income. Administrator fees incurred for the year ended 30 June 2023 were US\$102,225 (30 June 2022: US\$109,411) of which US\$30,748 was due to the Administrator as at 30 June 2023 (30 June 2022: US\$95,043).

#### NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

#### 3. Fees and Expenses (continued)

#### Performance fee

There are no performance fees charged to the Sub-Fund as at 30 June 2023. The Investment Manager is not entitled to performance fees from the Sub-Fund.

#### **Depositary fees**

Northern Trust Fiduciary Services (Ireland) Limited (the "Depositary") shall be entitled to receive out of the assets of the Sub-Fund, an annual fee (plus VAT, if any) as detailed in the table below, accrued and calculated at each Valuation Point and payable monthly in arrears.

#### Depositary Fee per Annum

Net Asset Value US\$0 to US\$250 million 0.15% Net Asset Value above US\$250 million 0.01% Minimum Fee EUR40,000

The Depositary shall also be entitled to be repaid out of the assets of the Sub-Fund for all of its reasonable disbursements incurred on behalf of the Sub-Fund, including the safe-keeping fees and expenses of any sub-custodian (which shall be at normal commercial rates) and transaction charges (which shall also be at normal commercial rates) levied by the Depositary or any sub-custodian and any applicable taxes it incurs on behalf of the Sub-Fund. Such custody fees shall accrue and be payable monthly in arrears.

Depositary fees incurred by the Sub-Fund are disclosed separately in the Statement of Comprehensive Income. Depositary fees incurred for the year ended 30 June 2023 were US\$42,712 of (30 June 2022: US\$48,475) which US\$7,955 was due to the Depositary as at 30 June 2023 (30 June 2022: US\$44,298).

Transaction costs	105,647	59,740

#### 5. Units in issue

The Manager was incorporated in Ireland on 26th September 2009 as a limited liability company with an authorised share capital of  $\notin$ 2,000,000.00 comprised of 2,000,000 Shares of  $\notin$ 1.00 each of which 452,994 shares of  $\notin$ 1.00 each have been issued fully paid-up.

There is currently one class of redeemable units in issue in the Sub-Fund, Class A USD. During the year ended 30 June 2023, the numbers of units issued and outstanding were as follows:

	Osmosis Resource Efficient Core Equity	Osmosis Resource Efficient Core Equity
	(Ex-fossil fuels) Fund	(Ex-fossil fuels) Fund
	Units	Units
	30/06/2023	30/06/2022
Units in issue at the beginning of the year	25,005,979	24,998,445
Units issued during the year	5,895,600	-
Units issued during the year as a Management fee rebate	2,042	7,534
Units in issue at the end of the year	30,903,621	25,005,979

# NOTES TO THE AUDITED FINANCIAL STATEMENTS

For the year ended 30 June 2023 (continued)

#### 5. Units in issue (continued)

#### **Significant Unitholding**

During the year, the Sub-Fund had one significant Unitholder, Stichting IMAS Foundation, owning 100% (30 June 2022: one significant shareholder owning 100%) of the total units in the Sub-Fund.

#### **Redemption of units**

Every Unitholder will have the right to require the Manager to redeem their units on any dealing day (save during any period when the calculation of the Net Asset Value is suspended) on furnishing to the Administrator a redemption request. In accordance with anti-money laundering regulations no redemption proceeds will be paid to redeeming Unitholders unless the Manager is in possession of the full completed original application form and appropriate original anti-money laundering documentation and any other documentation required by the Directors of the Manager or their delegate. Units may be redeemed by a signed written application through the Manager.

All redemption/purchase requests are dealt with on a forward pricing basis, i.e. by reference to the Redemption Price for Units calculated at the Valuation Point on the relevant Dealing Day.

				E	Osmosis Resource fficient Core Equity

Hong Kong dollar	7.84695	Swiss franc	0.95735
Israel New shekel	3.50215		

#### 8. Financial risk management

The activities of the Sub-Fund expose it to various financial risks. The Sub-Fund's overall risk management process focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Sub-Fund's financial performance. Risk is inherent in the Sub-Fund's activities but it is managed through a process of ongoing identification, measurement and monitoring, subject to risks limits and other controls. The process of risk management is critical to the Sub-Fund's continuing profitability. The Sub-Fund is exposed to market risk (including currency risk, interest rate risk and other price risks), credit risk and liquidity risk arising from the financial instruments it holds.

Responsibility for day to day management of the Sub-Fund risk has been retained by the Manager, subject to its Risk Management Policy, and Osmosis Investment Management UK Limited as Investment Manager to the Sub-Fund. The Manager manages the financial risks of the Sub-Fund through the Risk Management Policy and Procedure (the "RMPP"). The Manager's Risk Officer and Designated Directors of the Manager are responsible for the implementation of the RMPP. Operational risk is monitored by the Designated Director of the Manager through periodic due diligence of delegates and ongoing monitoring of reporting from delegates.

The Manager monitors the consistency between the investment strategy, objective and profile of the portfolio with respect to what has been communicated to investors through the Sub-Funds' Prospectus and Supplement.

#### NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

#### 8. Financial risk management (continued)

Liquidity risk is monitored and managed to ensure that the Sub-Fund meets its underlying obligations based on maintaining appropriate liquid assets. The monitoring approach also incorporates bid/offer spreads, trade volumes of sectors, time to liquidate the Sub-Fund in part or in entirety as well as monitoring market impacting events.

#### Market risk

Market risk is the risk that changes in interest rates, foreign exchange rates or other prices will affect the positions held by the Sub-Fund. All financial assets and liabilities designated at fair value through profit or loss and held for trading are measured at fair value and all changes in market conditions directly affect fair value. The Sub-Fund is susceptible to market price risk arising from uncertainties about future prices.

#### (i) Price risk

The Sub-Fund is exposed to equity securities price risk. Price risk is the risk that the value of an investment may fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment or all factors affecting all instruments traded in the market.

The Investment Manager utilises an estimated covariance matrix and open optimiser which has been developed and is maintained on a daily basis by a third party risk vendor in order to generate the minimum variance portfolio. The portfolio will be rebalanced quarterly at a period determined by the Investment Manager given optimal market and portfolio conditions to ensure efficient portfolio management.

The Sub-Fund may also use derivatives for investment and efficient portfolio management purposes including for hedging purposes. The only techniques and instruments which may be used by the Sub-Fund are forward currency contracts and exchange traded futures. The Sub-Fund currently holds exchange traded futures as at 30 June 2023.

At 30 June 2023, the fair values of equity investments exposed to price risk are categorised below:

#### Investments held as at 30 June 2023

		% of equity

#### (ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will change because of changes in foreign exchange rates.

Currency risk arises when the Sub-Fund invests in financial instruments denominated in currencies other than its functional currency. Consequently, the Sub-Fund is exposed to risks that the exchange rate of these currencies relative to the functional currency may change in a manner, which may have a favourable or unfavourable effect on the value of the Sub-Fund's net assets.

The table below analyses monetary and non-monetary items of foreign exchange exposure: **As at 30 June 2023** 

	Monetary exposure	Non-monetary exposure	Total exposure	Rate sensitivity	FX rate sensitivity
Currency	US\$	US\$	US\$	%	US\$

	345,320	72,304,953	72,650,273		7,265,027

The tables also summarises the sensitivity of the Sub-Fund's monetary and non-monetary assets and liabilities to changes in foreign exchange movements at 30 June 2023 and 30 June 2022. The analysis is based on the assumptions that the relevant foreign exchange rate increased by the percentage disclosed in the table, with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the foreign exchange rates and is not intended to be predictive.

#### (iii) Interest rate risk

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and liabilities and future cash flows. As at 30 June 2023 the Sub-Fund did not hold interest-bearing securities, and as such does not have a significant exposure to interest rate risk. Excess cash and cash equivalents are invested at short-term market interest rates thus contributing very little to fair value interest rate risk however such balances are exposed to cash flow interest rate risks.

Balances exposed to cash flow interest rate risks are the cash and cash equivalent amounts disclosed in the Statement of Financial Position.

#### Liquidity risk

Liquidity risk is the risk that the Sub-Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous. The Sub-Fund is subject to Redemption requests, those received prior to the relevant Sub-Funds Dealing Deadline for any dealing day, will be processed on the next dealing day.

#### NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

#### 8. Financial risk management (continued)

#### Liquidity risk (continued)

The Sub-Fund invests primarily in securities which in the opinion of the Investment Manager are readily realisable. As a result, the Sub-Fund is likely to be able to liquidate quickly its investments in these instruments at an amount close to their fair value in order to meet its liquidity requirements.

All of the liabilities of the Sub-Fund as at 30 June 2023, as shown in the Statement of Financial Position fall due within three months of the year-end.

The Manager has established a liquidity management policy which enables it to identify, monitor and manage the liquidity risks of the Fund and the Sub-Fund and to ensure the liquidity profile of the investments of the Sub-Fund will facilitate compliance with its underlying obligations.

The Manager's liquidity policy takes into account the investment strategy, the liquidity profile, redemption policy and other underlying obligations of the Fund and the Sub-Fund. The liquidity management systems and procedures include appropriate escalation measures to address anticipated or actual liquidity shortages or other distressed situations of the Fund and the Sub-Fund. As at 30 June 2023 there were no forward foreign currency contracts held on the Sub-Fund.

#### Credit risk

Northern Trust Fiduciary Services (Ireland) Limited ("NTFSIL") is the appointed Depositary of the Sub-Fund, responsible for the safe-keeping of assets. NTFSIL has appointed The Northern Trust Company ("TNTC") as its global sub-custodian. Both NTFSIL and TNTC are wholly owned subsidiaries of Northern Trust Corporation ("NTC"). As at year-end date 30 June 2023, NTC had a long term credit rating from Standard & Poor's of (A+) (30 June 2022: A+).

TNTC (as global sub-custodian of NTFSIL) does not appoint external sub-custodians within the U.S., the U.K., Ireland, Canada, Belgium, France, Germany, Netherlands and Saudi Arabia. However, in all other markets, TNTC appoints local external sub-custodians.

NTFSIL, in the discharge of its depositary duties, verifies the Fund's ownership of Other Assets, (as defined under other assets, Art 22(5) of UCITS V Directive 2014/91/EU), by assessing whether the Sub-Fund holds the ownership based on information or documents provided by the Sub-Fund or where available, on external evidence.

TNTC, in the discharge of its delegated depositary duties, holds in custody (i) all financial instruments that may be registered in a financial instruments account opened on the books of TNTC and (ii) all financial instruments that can be physically delivered to TNTC. TNTC ensures all financial instruments (held in a financial instruments account on the books of TNTC) are held in segregated accounts in the name of the Sub-Fund, clearly identifiable as belonging to the Sub-Fund, and distinct and separately from the proprietary assets of TNTC, NTFSIL and NTC.

In addition TNTC, as banker, holds cash of the Sub-Fund on deposit. Such cash is held as a liability on the Statement of Financial Position of TNTC. In the event of insolvency of TNTC, in accordance with standard banking practice, the Sub-Fund will rank as an unsecured creditor of TNTC in respect of any cash deposits.

Where relevant please note the following currencies, Jordanian Dinar, Saudi Riyal, cash in the onshore China market (principally the currency of Chinese Yuan Renminbi, and any other currencies remitted into accounts in the onshore China market), are no longer held on the Balance Sheet of TNTC. For these off-book currencies, clients' cash exposure is directly to the relevant local sub-custodian / financial institution in the market.

#### NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

#### 8. Financial risk management (continued)

#### Credit risk (continued)

Insolvency of NTFSIL and or one of its agents or affiliates may cause the Sub-Fund's rights with respect to its assets to be delayed or limited.

The Responsible Party manages risk by monitoring the credit quality and financial position of the Depositary and such risk is further managed by the Depositary monitoring the credit quality and financial positions of sub-custodian appointments.

The nominal value of the futures held by the Sub-Fund as at 30 June 2023 is US\$1,701,101 (30 June 2022: US\$952,303).

Cash held with the counterparty is margin cash relating to the futures held by the Sub-Fund.

As at 30 June 2023, the Sub-Fund's counterparties have the following credit ratings from Standard & Poor's; JP Morgan A-1 (30 June 2022: A-1).

#### Offsetting financial assets and liabilities

There were no master netting agreements in place for the Sub-Fund for the year ended 30 June 2023 (30 June 2022: none), therefore the Sub-Fund had no legal right to offset.

The Sub-Fund was not subject to offsetting agreements during the year ended 30 June 2023.

#### Capital risk management

The capital of the Sub-Fund is represented by the net assets attributable to holders of redeemable participating units. Being the equity of the Sub-Fund, the amount of equity can change significantly on a daily basis, as the Sub-Fund is subject to daily subscriptions and redemptions at the discretion of Unitholders. Large redemptions of units in the Sub-Fund may result in the Sub-Fund being forced to sell assets at a time and price at which it would normally prefer not to dispose of those assets.

The Manager may, at its discretion, with the consent of the Unitholders or at the request of Unitholders, satisfy a redemption request by redemption of investments of the Sub-Fund in specie provided that such redemption would not prejudice the remaining Unitholders of the Sub-Fund.

The Sub-Fund regards its equity, which represents its net assets attributable to holders of redeemable equity units as capital.

The Sub-Fund's objectives for managing capital are:

- to invest the capital in investments meeting the description, risk exposure and expected return indicated in its Prospectus;
- to achieve consistent returns while safeguarding capital by investing in accordance with its investment policy or holding cash;
- to maintain sufficient liquidity to meet the expenses of the Sub-Fund; and
- to maintain sufficient size to make the operation of the Sub-Fund cost-efficient.

The Sub-Fund has no externally imposed capital requirements.

#### NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

#### 8. Financial risk management (continued)

#### Fair value estimation

The Sub-Fund's accounting policies in relation to measuring financial assets and financial liabilities at fair value through profit or loss are set out in Note 2.

The Sub-Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes "observable" requires significant judgment by the Sub-Fund. The Sub-Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The financial assets and liabilities not measured at fair value through profit or loss are short-term financial assets and financial liabilities whose carrying amounts approximate fair value. All other financial assets and liabilities not measured at fair value through profit or loss are categorised as Level 2 in the fair value hierarchy.

#### Fair value estimation

The following is a summary of the inputs used to value the Sub-Fund's assets and liabilities as at 30 June 2023.

Osmosis Resource Efficient Core Equity fossil fuels) Fund	(Ex· Level 1	Level 2	Level 3	Total

#### 9. Related party transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

Prescient Fund Services (Ireland) Limited has been appointed as the Manager of the Fund with effect from 21 December 2020. For the year ended 30 June 2023, the Manager charged fees of US\$111,003 (30 June 2022: US\$113,309) and Manager fees payable as at 30 June 2023 amounted to US\$29,447 (30 June 2022: US\$27,503).

The Manager may rebate all or part of its Management Fee to any Unitholder, it being acknowledged that such rebate, if any, may differ between Unitholders and that the Manager will have ultimate discretion in this matter.

The Manager appointed Osmosis Investment Management UK Limited as the Investment Manager of the Sub-Fund. The Investment Manager acts as the Investment Manager and Distributor of the Sub-Fund. The Investment Manager is entitled to receive Investment Management fee as set out in Note 3. All fees charged by the Investment Manager are disclosed separately in the Statement of Comprehensive Income. Investment Management fees for the year ended 30 June 2023 were US\$261,006 (30 June 2022: US\$273,528) of which US\$95,518 was due to the Investment Manager as at 30 June 2023 (30 June 2022: US\$19,766).

During the year ended 30 June 2023, the Investment Manager gave an Investment Management fee rebate of US\$19,123 (30 June 2022: US\$84,297) of which US\$Nil (30 June 2022: US\$Nil) was due from the Investment Manager as at 30 June 2023. This Investment Management fee rebate was invested back by the means of a subscription. The Investment Manager may rebate all or part of its Investment Management fees to any Unitholder, it being acknowledged that such rebate, if any, may differ between Unitholders.

#### NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

#### 9. Related party transactions (continued)

The Directors of the Manager did not receive any remuneration from the Fund for their services during the financial year. The Directors of the Fund are not remunerated directly for their services in the Fund but are remunerated by the Manager, in their capacity as Directors of the Manager, which reflects their responsibilities in their role as Directors.

Carey Millerd, a Director, is a Director of Prescient Fund Services (Ireland) Limited, which is the appointed management company to Osmosis UCITS CCF. He is also a director of a number of the Prescient group companies including Prescient Fund Services (Pty) Limited, as well as collective investment schemes managed by Prescient Fund Services (Ireland) Limited, namely Prescient Global Funds ICAV and Prescient Global Qualified Investor Funds ICAV.

Hermanus Steyn, a Director, is a Director of Prescient Fund Services (Ireland) Limited, which is the appointed management company to Osmosis UCITS CCF. Mr Steyn is a co-founder of Prescient Investment Management Limited and is the current Executive Chairman. Mr Steyn is also a Director of number of the Prescient group companies including Prescient Fund Services (Pty) Limited, as well as collective investment schemes managed by Prescient Fund Services (Ireland) Limited, namely Prescient Global Funds ICAV and Prescient Global Qualified Investor Funds ICAV.

During the year, the Sub-Fund had one significant Unitholder, Stichting IMAS Foundation, owning 100% of the total units in the Sub-Fund (30 June 2022: one significant shareholder owning 100%).

#### 10.Taxation

The CCF is a common contractual fund within the meaning of section 739I Tax Consolidation Act 1997, as amended, ("TCA"), in which the unitholders by contractual arrangement participate and share in the property of the CCF as co-owners.

Section 739I of the TCA provides that a common contractual fund shall not be chargeable to tax in respect of its relevant income and relevant gains (relevant profits).

Instead, the relevant profits of the CCF or its Sub-Fund shall be treated as arising, or as the case may be, accruing to each unitholder of the CCF or its Sub-Fund in proportion to the value of the units beneficially owned by the unitholder, as if the relevant profits had arisen or as the case may be, accrued, to the unitholders in the Sub-Fund without passing through the common contractual fund.

This tax treatment is subject to each of the units of the CCF or its Sub-Fund;

(a) being an asset of a pension fund or being beneficially owned by a person other than an individual, or

(b) being held by an intermediary, a depositary or trustee for the benefit of a person other than an individual.

It is the intention of the Manager that units are not held by natural persons and that the CCF and its Sub-Fund will be tax transparent. The CCF and its Sub-Fund does not have a separate legal personality. On the basis that the units of the CCF and its Sub-Fund are held by persons described above and that the CCF and its Sub-Fund is constituted other than under trust or statute law, the CCF and its Sub-Fund shall not be chargeable to tax in respect of its relevant profits.

Distributions, interest or gains derived from securities may be subject to taxes, including withholding taxes imposed by the country of source. The CCF and its Sub-Fund has been constituted by the Manager with the objective that it would be viewed as tax transparent. Providing such transparency is respected, where double taxation treaties apply, those treaties between the countries where the unitholders and the investments are located will be relevant.

#### NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

#### **10.Taxation** (continued)

The objective of the Manager is that the CCF and its Sub-Fund may effectively be ignored for double taxation treaty purposes although the Manager makes no representations or warranties as to the tax transparency of the CCF or its Sub-Fund in any jurisdictions.

The unitholders in the CCF and its Sub-Fund may not be able to benefit from a reduction in the rate of withholding tax and may not therefore be able to prevent withholding taxes being deducted or be able to reclaim withholding taxes suffered in particular countries. If this position changes in the future and the application for a higher or lower rate results in an additional payment of tax or repayment to a relevant sub-fund, the NAV of the relevant sub-fund will not be re-stated and the benefit or the cost will be allocated to the existing unitholders of the relevant sub-fund rateably at the time of the adjustment.

#### 11. Auditors remuneration

Audit fees (exclusive of VAT at 23%) charged for the year and period are as follows:

	Osmosis Resource	
	Efficient Core Equity Efficient Core Equity	
	(Ex-fossil fuels)	(Ex-fossil fuels)
	Fund	Fund
	30 June 2023	30 June 2022
	US\$	US\$
Statutory audit of Financial Statements	13,965	16,717
	13,965	16,717

There were no fees and expenses paid in respect of other assurance or non-audit services provided by the auditors for the financial year ended 30 June 2023.

#### 12. Other liabilities

	Osmosis Resource Efficient Core Equity (Ex- fossil fuels) Fund 30 June 2023 US\$	Osmosis Resource Efficient Core Equity (Ex- fossil fuels) Fund 30 June 2022 US\$

	(92,082)	(112,010)

#### NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

#### 13. Contingent liabilities and commitments

The Sub-Fund does not have, at the year-end, any loan capital (including term loans) outstanding or created but unissued, or any outstanding mortgages, charges, debentures or other borrowings or indebtedness in the nature of borrowings, including bank overdraft, liabilities under acceptances or acceptance credits, obligations under finance leases, hire purchase, commitments, guarantees or other contingent liabilities not otherwise disclosed in these financial statements.

#### 14. Efficient portfolio management

The Sub-Fund may use financial derivate instruments for the purposes of efficient portfolio management.

During the year, the Sub-Fund entered into derivative instruments including forward foreign currency contracts and futures contracts for the purpose of efficient portfolio management. Gains and losses from these derivative instruments are disclosed in the Statement of Comprehensive Income. Please refer to the Schedule of Investments for a full list exposures from futures which are held at 30 June 2023. Margin cash held, the related counterparties, revenues arising from instruments, direct and indirect costs for the use of financial derivative instruments are outlined in note 6.

#### 15. Global Exposure

The Sub-Fund calculates global exposure using the commitment approach as set out in the Central Bank of Ireland's Guidance Note 3/03. The Sub-Fund's global exposure relating to financial derivative instruments shall not exceed 100% of the Net Asset Value of the Sub-Fund and will be measured using the commitment approach.

Global exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and time available to liquidate position. The global exposure at 30 June 2023 is 0.31% (30 June 2022: 0.41%). At 30 June 2023, the global exposure of the Sub-Fund was US\$1,071,101 (30 June 2022: US\$952,303).

#### **16. Soft Commissions**

There were no soft commission arrangements undertaken during the year (30 June 2022: none).

#### 17. Employees

The Sub-Fund does not have employees as at 30 June 2023 (30 June 2022: none).

#### 18. Significant events during the year

The Board of Directors have noted the recent developments in the Ukraine and the sanctions being imposed on Russia. Given the absence of exposure in the region, the Board of Directors' view is that these developments and sanctions are unlikely to have a significant direct adverse impact on the ICAV.

The Board of Directors continues to monitor the developments closely and to take all the necessary actions.

A&L Goodbody have been appointed as legal advisors to the Sub-Fund replacing Pinsent Masons on 1 March 2023.

There have been no other significant events affecting the Sub-Fund during the year.

#### NOTES TO THE AUDITED FINANCIAL STATEMENTS For the year ended 30 June 2023 (continued)

For the year ended so Julie 2023 (continued

#### 19. Significant events since the year-end

Osmosis Resource Efficient Developed Markets Core Equity (Ex-Fossil Fuel) Fund, a new Sub-Fund launched on 25 September 2023.

There have been no other significant events affecting the Sub-Fund since 30 June 2023 that require recognition or disclosure in these financial statements.

#### 20. Approval of the financial statements

These financial statements were approved on 19 October 2023.

APPENDIX 1 - ADDITIONAL DISCLOSURES TO THE UNITHOLDERS OF OSMOSIS UCITS CCF -OSMOSIS RESOURCE EFFICIENT CORE EQUITY (EX-FOSSIL FUELS) FUND (Unaudited) For the year ended 30 June 2023

#### Remuneration disclosures

An effective Remuneration policy of the Manager (the "Remuneration Policy") has been put in place by the Manager which complies with the Manager and the European Securities and Markets Authority (the "ESMA") guidelines on sound Remuneration policies under UCITS (the "Guidelines").

The purpose of the Manager's remuneration policy is to seek to ensure that the remuneration arrangements of "identified staff':

(i) is consistent with and promotes sound and effective risk management and does not encourage risk-taking which is inconsistent with the risk profile, rules or instruments of incorporation of the Manager; and

(ii) is consistent with the Manager's business strategy, objectives, values and interests and includes measures to avoid conflicts of interest.

The ESMA Guidelines relating to governance, the remuneration committee and transparency, and certain of the risk-alignment guidelines, apply to the Manager as a whole.

The Fund complies with those objectives by having a business model which by its nature does not promote excessive risk taking; by defining performance goals and objectives for employees of the Funds' delegates which are aligned with the business; and by ensuring that the fixed salary element of those involved in relevant functions reflects the market rate.

#### **Remuneration Policy of the Manager**

The Manager's policy is to design and implement a remuneration policy which is consistent with and promotes sound and effective risk management and does not encourage risk-taking which is inconsistent with the risk profile or the Deed of the Fund and its Sub-Funds. Furthermore, the Manager's remuneration policy is consistent with the Sub-Fund's respective business strategies, objectives, values and interests and includes measures to avoid conflicts of interest. In line with the UCITS Regulations, the guidelines issues by ESMA and the requirements of the Central Bank, all of which may be amended from time to time, the Manager applies its remuneration policy in a manner which is proportionate to its size and that of the Funds, its internal organization and the nature, scope and complexity of its activities.

The Manager does not impose a limit with regard to variable compensation versus fixed compensation. However, the Manager's policy is to pay all staff a fixed component representing a sufficiently high proportion of the total remuneration of the individual to allow the Manager to operate a fully flexible policy, with the possibility of not paying any variable component.

Where the Manager pays its staff performance related pay, the following requirements, among others, will be applied:

(a) where remuneration is performance related, the total amount of remuneration is based on a combination of the assessment of the performance of the individual and of the business unit of the Sub-Fund and of the overall results of Manager, and when assessing individual performance, financial as well as non-financial criteria are taken into account;

(b) the assessment of performance is set in a multi-year framework appropriate to the life-cycle of the Sub-Fund in order to ensure that the assessment process is based on longer term performance and that the actual payment of performance-based components of remuneration is spread over a period which takes account of the performance fee calculation period of the relevant Fund, the Fund's redemption policy and its investment risks (as set out in the relevant Supplement);

APPENDIX 1 - ADDITIONAL DISCLOSURES TO THE UNITHOLDERS OF OSMOSIS UCITS CCF -OSMOSIS RESOURCE EFFICIENT CORE EQUITY (EX-FOSSIL FUELS) FUND (Unaudited) For the year ended 30 June 2023 (continued)

#### Remuneration Policy of the Manager (continued)

(c) the Manager does not pay guaranteed variable remuneration except in an exceptional case in the context of hiring new staff and is limited to the first year;

(d) payments related to the early termination of a contract reflect performance achieved over time and are designed in a way that does not reward failure;

(e) the measurement of performance used to calculate variable remuneration components or pools of variable remuneration components includes a comprehensive adjustment mechanism to integrate all relevant types of current and future risks;

(f) variable remuneration is not paid through vehicles or methods that facilitate the avoidance of the requirements of the Manager Regulations.

The total amount of remuneration paid by the AIFM to its staff in respect of the financial year ended 30 June 2023 is  $\in 2,595,332$  (30 June 2022:  $\in 1,776,572$ ) which can be allocated as 88% fixed and 12% variable. There were a total of 29 (30 June 2022: 26) beneficiaries of the remuneration described above. The amount of the remuneration paid by the AIFM to its senior management in respect of the financial year 30 June 2023 was  $\in 649,795$  (30 June 2022:  $\notin 604,186$ ). The amount of the total remuneration paid by the AIFM to members of its staff whose actions have a material impact on the risk profile of the AIF in respect of the financial year ended 30 June 2023 was  $\notin 32,723$  (30 June 2022:  $\notin 30,000$ ).

In line with ESMA guidance, the remuneration disclosures relate to the delegates of the management company who are responsible for investment management. The total amount of remuneration paid by the delegates to its staff in respect of the financial year ended 30 June 2023 is  $\in$ 35,265 (30 June 2022:  $\in$ 45,101).

#### **APPENDIX 2 – SECURITIES FINANCING TRANSACTIONS REGULATION** (Unaudited) For the year ended 30 June 2023

A Securities Financing Transaction ("SFT") is defined as per Article 3(11) of the Securities Financing Transactions Regulations as:

- · a repurchase transaction;
- · securities or commodities lending and securities or commodities borrowing;
- $\cdot$  a buy-sell back transaction or sell-buy back transaction; or
- · a margin lending transaction.

UCITS are required to disclose the use of SFTs.

For the financial year ended 30 June 2023, the Osmosis Resource Efficient Core Equity (Ex-fossil fuels) Fund (the "Sub-Fund") did not trade in any SFTs.

## Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

#### Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. **That Regulation** does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Osmosis Resource Efficient Core Equity Fund (ex-fossil fuels)(the Fund) Legal entity identifier: 635400UXAOKLDOAYNV77

## **Environmental and/or social characteristics**

#### Did this financial product have a sustainable investment objective? Yes No Х It made **sustainable** It promoted Environmental/Social (E/S) characteristics and investments with an while it did not have as its objective a environmental objective: \_\_\_% sustainable investment, it had a proportion of in economic activities that % of sustainable investments qualify as environmentally with an environmental objective in economic sustainable under the EU activities that qualify as environmentally Taxonomy sustainable under the EU Taxonomy in economic activities that do not qualify as environmentally with an environmental objective in economic activities that do not qualify as sustainable under the EU environmentally sustainable under the EU Taxonomy Taxonomy with a social objective It made sustainable investments It promoted E/S characteristics, but did not Х make any sustainable investments with a social objective: %

## To what extent were the environmental and/or social characteristics promoted by this financial product met?

1. During the reporting period from 1 July 2022 to 30 June 2023 (the **Reporting Period**), the Fund promoted the following environmental characteristics:

- Carbon emission reduction;
- Water Consumption reduction; and
- Waste generation reduction;

relative to constituent companies of the MSCI World Index

These correspond to the following objectives set out in Article 9 of Regulation (EU) 2020/852:

- Climate change mitigation;
- Sustainable use and protection of water and marine resources; and
- Transition to a circular economy.

2. In addition to the environmental characteristics promoted by the Fund, several social characteristics were promoted by the Fund during the Reporting Period, through the exclusion of companies based on their activity, sector or actions. The characteristics promoted were:

- human rights, labour rights and anti-corruption as defined by the Social and Governance Principles of the United Nations Global Compact; and
- ethical exclusions through the exclusion of tobacco companies or companies involved in the manufacture of anti-personel land mines or cluster munitions.

The Fund met these environmental and social characteristics, as measured by reference to the sustainability indicators set out immediately below.

#### How did the sustainability indicators perform?

1. In order to measure how the environmental characteristics referred to above were met, the following figures were calculated in respect of each of the Fund and the MSCI World Index:

- Carbon emissions (in tCO2e) / revenue (in million dollars);
- Water usage (in m3) / revenue (in million dollars); and
- Waste generated (in metric tonne) / revenue (in million dollars);

These figures were then translated into carbon, water and waste footprints for each of the Fund and the MSCI World Index and compared. The performance of the Fund relative to the MSCI World Index during the Reporting Period in respect of these footprints is set out in Figure 1 below and shows a significant saving in carbon emissions, reduction in water use and less generation of waste by the Fund's portfolio companies relative to the constituent companies of the MSCI World Index.

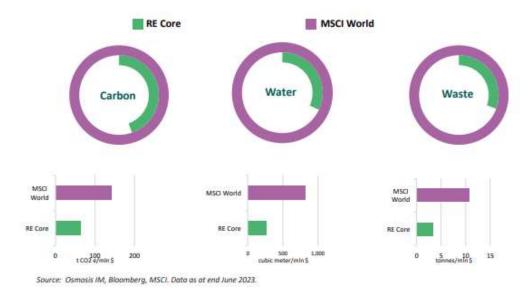

Figure 1. Carbon, water and waste of the Fund (referred to as "RE Core") compared to the MSCI World Index in June 2023

- 2. The sustainability indicators used to measure how the social characteristics referred to above were met were:
  - (Lack of) exposure to companies in breach of the Social and Governance Principles as defined by the United Nations Global Compact; and
  - (Lack of) exposure to companies classfied as tobacco companies or to companies that are involved in the manufacture of anti-personel mines or cluster munitions.

The Fund had no exposure during the Reporting Period to companies:

- in breach of the Social and Governance Principles as defined by the United Nations Global Compact;
- classified as tobacco companies; or
- involved in the manufacture of anti-personel mines or cluster munitions.

#### …and compared to previous periods?

N/A as this is the first periodic report provided in accorance with Chapter V, Section 1 of Commission Delegated Regulation (EU) 2022/1288 for the Fund.

# What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

N/A - the Fund did not commit to make sustainable investments as defined under the SFDR.

# How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

N/A - the Fund did not commit to make sustainable investments as defined under the SFDR.

- How were the indicators for adverse impacts on sustainability factors taken into account?
  - N/A the Fund did not commit to make sustainable investments as defined under the SFDR.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

#### Principal adverse

impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.  Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A - the Fund did not commit to make sustainable investments as defined under the SFDR.

## How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager's evidence-based approach looks at objective and verifiable measures of sustainability, through the stripping out of subjective data such as environmental targets or policies, measuring sustainable action over intent. The Fund's PAI metrics are carbon emissions (in metric tonnes), water usage (in cubic metres) and waste generation (in metric tonnes). These correspond to the metrics used by MoRE to score companies and choose which ones the Fund invests in. This process depends on the MoRE Model to arrive at a Resource Efficiency Factor Score for each company.

The Resource Efficiency Factor Score was used to select companies in order to build a portfolio of those companies which have improved sustainability characteristics focused on carbon emission, water consumption and waste creation and which target an excess performance derived from the tilts to such sustainability factors.

[ALG Note: The specific principal adverse indicators from Annex I of the SFDR Delegated Reulation that have ben considered should be included here and an explanation of how they have been considered should be included here.]

#### What were the top investments of this financial product?

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Top holdings are calculated using a daily weighted average.

#### What was the proportion of sustainability-related investments?

The Fund did not commit to making any sustainable investments.

• What was the asset allocation?

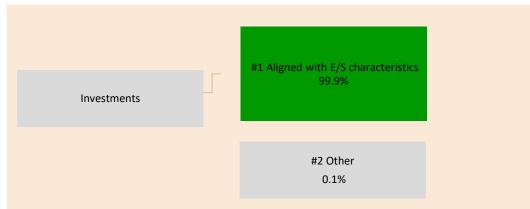

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable

other activities to make a substantial contribution to an environmental objective.

Transitional activities are

activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance. 99.9% of the Fund's Net Asset Value<sup>1</sup> was invested in companies which, in aggregate over the Reporting Period, had a lower carbon, water and waste footprint than the constituent companies of the MSCI World Index. The Fund had no exposure during the Reporting Period to companies in breach of the Social and Governance Principles as defined by the United Nations Global Compact, to companies classified as tobacco companies or to companies involved in the manufacture of anti-personel mines or cluster munitions. Therefore, all of the Fund's assets (excluding cash) sought to promote the associated environmental and/or social characteristics. Accordingly, 99.9% of the Fund's Net Asset Value<sup>2</sup> was aligned with any one or more of the environmental and/or social characteristics of the Fund.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#20ther** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

In which economic sectors were the investments made?

Asset allocation describes the share of investments in specific assets.

Sector

Proportion of investments (expessed as a percentage of the Fund's Net Asset Value)<sup>3</sup>

<sup>1</sup> Calculated on the basis of average daily weights over the Reporting Period.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund did not make sustainable investments aligned with the EU Taxonomy. 0% of the assets of the Fund qualify as environmentally sustainable under the EU Taxonomy.

0% of the assets of the Fund qualify as environmentally sustainable targeting the climate change mitigation objective.

0% of the assets of the Fund qualify as environmentally sustainable targeting the climate change adaptation objective.

0% of the assets of the Fund qualify as environmentally sustainable targeting the sustainable use and protection of water and marine resources objective.

0% of the assets of the Fund qualify as environmentally sustainable targeting the transition to a circular economy objective.

0% of the assets of the Fund qualify as environmentally sustainable targeting the pollution prevention and control objective.

0% of the assets of the Fund qualify as environmentally sustainable targeting the protection and restoration of biodivesity and ecosystems objective.

Taxonomy-aligned activities are expressed as a share of:

- turnover
   reflecting the
   share of revenue
   from green
   activities of
   investee
   companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

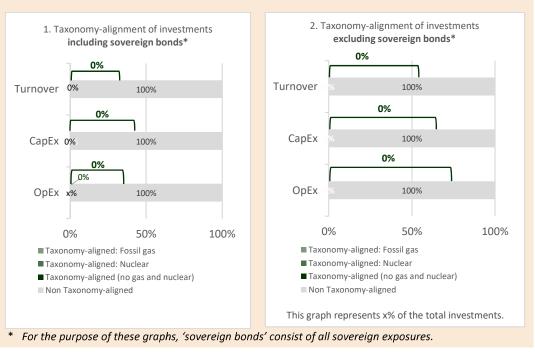

investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>5</sup>?

	Yes:		
		In fossil gas	In nuclear energy
Х	No		

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds<sup>\*</sup>, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

What was the share of investments made in transitional and enabling activities?

0%. The Fund did not make sustainable investments aligned with the EU Txonomy.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

N/A.

<sup>&</sup>lt;sup>5</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

## What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0%. The Fund did not make sustainable investments.

#### What was the share of socially sustainable investments?

0%. The Fund did not invest in socially sustainable investments.

## What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The investments included under "other" comprised of cash for liquidity purposes, and no minimum environmental or social safeguards were implemented in respect of these exposures.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager utilised its MoRE Model to arrive at a Resource Efficiency Factor Score for each investee company. The Resource Efficiency Factor Score was used to select companies in order to build the Fund's portfolio of those companies which have improved sustainability characteristics focused on carbon emission, water consumption and waste creation and which target an excess performance derived from the tilts to such sustainability factors. Therefore, the Investment Manager, through its MoRE Model, maximised the Fund's sustainability exposure within the risk tolerance of investors, notwithstanding the broad nature of the MSCI World Index resulting in investment in companies which, in aggregate, during the Reporting Period, had lower carbon, water and waste footprints than the constituent companies of the MSCI World Index.

The Investment Manager applies negative screens on its selection universe, exclusing companies that derive more than 5% of their revenues from fossil fuel-related activities, excluding petrochemical production. Utility companies that generate more than 50% of electricity from renewable sources are allowed back in the selection universe. Further negative screens are applied based on company's involvement in thermal coal and tar sands, as well as company's involvement in controversial weapons.

The Investment Manager also applied negative screens on its selection universe, excluding companies in breach of the Social or Governance United Nations Global Compact standards, classed as tobacco companies or involved in manufacturing of anti-personel mines or cluster munitions.

The Investment Manager operated an active ownership policy in respect of the Fund during the Reporting Period, which included engagement with companies as well as exercising its voting rights. The engagement with companies related to the sustainability characteristics focused on carbon emissions, water consumption and waste generation, such as disclosure by the corporates of these metrics or their performance on the metrics. This active ownership policy promoted the environmental characteristics for this Fund with the underlying companies by encouraging reductions in carbon emissions, water consumption and waste generation by those companies.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

N/A

How does the reference benchmark differ from a broad market index?

N/A

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

N/A

*•* How did this financial product perform compared with the reference benchmark?

N/A

How did this financial product perform compared with the broad market index?

N/A
