

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

PPS Global Equity Fund

a sub-Fund of PRESCIENT GLOBAL FUNDS ICAV ("THE ICAV")

Share Class: A1 USD

This Fund is managed by Prescient Fund Services (Ireland) Limited (The "Manager")

Objectives and Investment Policy

The Fund's primary investment objective is to outperform the MSCI All Country World Index (net of fees) (the "Benchmark").

In pursuit of its investment objective, the Fund will invest up to 100% of the Net Asset Value in a diversified portfolio of global equity and equity-related securities (including common stock, preference and convertible preference shares, American depositary receipts and global depository receipts, equity linked notes, convertible bonds and rights), which are listed on a Recognised Exchange worldwide. The Fund may invest in China A shares listed on the Shanghai Stock Exchange via the Shanghai Hong Kong Stock Connect scheme, or the Shenzhen Stock Exchange via the Shenzhen Hong Kong Stock Connect scheme.

The Fund may invest up to 10% of its Net Asset Value in the units and/or shares of collective investment schemes, including money market funds and ETFs (which are eligible for investment by a UCITS) in accordance with the requirements of the Central Bank. The Fund can also hold up to 20% of Net Asset Value in cash (including in currencies other than the Base Currency) or ancillary liquid assets comprising short term money market instruments (including fixed / floating rate notes, commercial paper, US treasury issues and fixed income debt securities, which will be listed on a Recognised Exchange) and cash equivalents (such as certificates of deposit and cash deposits) for cash management purposes.

Investments will have a global focus and are not confined or concentrated in any particular geographic region or market.

The Fund may utilise financial derivative instruments (futures, options, forwards and swaps) for efficient portfolio management purposes

including for hedging. Derivatives may be traded on a Recognised Exchange or over-the-counter.

The Fund is actively managed in reference to the Benchmark by virtue of the fact that it seeks to out-perform the Benchmark and uses the Benchmark for performance measurement / comparison purposes. While it is anticipated that the strategy will be adequately diversified across stocks, sectors, countries and regions, a significant portion of the Fund's securities will be components of the Benchmark but will likely have different weightings from the Benchmark. The Investment Manager may use its discretion to invest in securities or sectors not included in the Benchmark in order to take advantage of investment opportunities. The investment strategy does not restrict the extent to which the Fund's holdings may deviate from the Benchmark. Deviations from the Benchmark are not limited by any tracking error and may be significant. This is likely to increase the extent to which the Fund can outperform (or underperform) the Benchmark.

This Share Class will not pay a dividend. Any income arising from the Fund will be reinvested to grow the value of your investment.

The Fund is suitable for investors seeking long term capital growth through investments in global equities.

You may buy and sell shares in the Fund on each business day in Ireland on which banks in Ireland are open for business.

Unless otherwise defined in this document, all words and expressions defined in the Prospectus shall have the same meaning herein. Please refer to the "Investment Objectives and Policies" section of the Prospectus and the "Investment Objective and Policy" section of the Supplement for further information.

Risk and Reward Profile of the Fund

The indicator above is not a measure of the risk of capital loss, but a measure of the Fund's price movement over time.

• It is based on historical data and thus may not be a reliable indication for the future.

• The indicated risk category is not guaranteed and may shift over time.

• The indicator is designed to help investors understand the uncertainties both for loss and for growth that may affect their investment. In this context, the lowest category does not mean "risk free".

• The Fund is classified in the category indicated above due to the past behaviour of its target asset mix.

• The Fund does not provide its investors with any guarantee on performance, nor on the monies invested in it.

In addition to the risk captured by the indicator, the overall Fund value may be considerably affected by:

- **Market Risk** - the Fund invests in shares of companies, and the value of these shares can be negatively affected by changes in the company or its industry or the economy in which it operates.
- **Currency Risk** - the Fund may be exposed to currency risk in relation to the valuation of assets held in currencies other than its base currency.
- **Derivatives Risk** - Derivatives are highly sensitive to changes in the value of the assets they are based on. The use of derivatives may result in gains or losses that are greater than the original amount invested
- **Liquidity Risk** - the risk stemming from the lack of marketability of an investment that cannot be bought or sold quickly enough to prevent or minimise a loss.
- **Counterparty Risk** - The insolvency of any institutions providing services, such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- **Developing Market Risk** - Some of the countries in which the Fund invests may have less developed legal, political, economic and/or other systems. These markets carry a higher risk of financial loss than those in countries generally regarded as being more developed

Please refer to the "Risk Factors" section of the Prospectus for further information - see under "Practical Information" for how to obtain a copy.

Charges for the Fund

These charges are used to pay the costs of running the Fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	3.00%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charges	1.46%
-----------------	-------

Charges taken from the Fund under certain specific conditions

Performance Fee	0.00%
-----------------	-------

The Exit and Entry charges shown are maximum figures, and in some cases an investor may pay substantially less, or there will be no charges at all. You can find out the actual entry and exit charges from your financial advisor, distributor or the Manager of the Fund.

The ongoing charges figure is an estimate based on a projection of the expenses of the Fund for the first twelve months of operation of the Fund, which includes estimates of any sales charges and ongoing charges which may be levied by the underlying collective undertakings into which the Fund invests.

This figure may vary from year to year. It excludes portfolio transaction costs, except in the case of an entry or exit charge paid by the Fund when buying or selling units in another UCITS or collective investment undertaking.

You can find more details about the charges in the section of the Fund's Prospectus entitled Fees and Expenses.

Past Performance

The chart shows the Fund's annual performance in USD for each full calendar year over the period displayed in the chart. It is expressed as a percentage change of the Fund's net asset value at each year-end.

The Fund was launched in 2019 and shares in this class were issued in 2020.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

Past performance is based on the net asset value (NAV) of the Fund and is not a reliable indicator of future results.
