The collective investment schemes referred to above are selected upon the completion of a thorough due diligence process, which will include both qualitative (i.e analysis that uses subjective judgment such as investment team expertise, investment process and investment philosophy) and quantitative analyses.(i.e historic performance analysis and other quantifiable metrics). The Fund may also from time to time hold ancillary liquid financial assets including short term debt securities (e.g. fixed and floating rate bonds and notes, government, municipal, corporate and securitized debt) and money market instruments (such as treasury bills, certificates of deposit, commercial paper and bankers' acceptances), which are issued by governments or corporations and have a credit rating or an implied credit rating of "investment grade" at the time of investment by Standard & Poors, Moody's or Fitch Ratings Limited.
