Prescient China Balanced Fund

a sub-Fund of PRESCIENT GLOBAL FUNDS ICAV (the "ICAV")

ISIN: N/A , Share Class: K EUR

This Fund is managed by Prescient Fund Services (Ireland) Limited (The "Manager")

Objectives and Investment Policy

The Fund's objective is to achieve long term capital growth appreciation, by investing predominantly in mainland Chinese equities, bonds, cash, money market instruments and derivatives.

The Fund may also invest in global equities, bonds cash, money market instruments and derivatives. Chinese geographical exposure may also be gained via securities including but not limited to derivatives, exchange-traded Funds and Regulated Funds traded on exchanges having obtained full membership of the World Federation of Exchanges.

The Fund may use derivatives to manage the risk profile of the Fund, for example to reduce the impact of price or exchange rate movements. The Fund may also invest in global currencies directly or through the use of financial derivatives. The currencies chosen by the Fund will mainly be with stable economies to reduce risk.

The Investment Manager has discretion in managing the assets of the Fund. Asset allocation will tend to be higher in equities, which are chosen to deliver growth but can be reduced at the discretion of the Investment Manager.

In relation to investment in interest bearing securities, 90% of such investments shall have a credit rating or an implied credit rating of "investment grade" at the time of investment or shall be made with issuers who have a credit rating or an implied credit rating of "investment grade" at the time of investment, by Standard & Poors, Moody's or Fitch Ratings Limited.

Whilst investment grade securities potentially produce a lower level or income than non-investment grade securities they are considered to be lower risk.

This Fund is managed in reference to the National Total Consumer Price Index (CPI) (as published by the National Bureau of Statistics of China) + 3% actively by virtue of the fact that the investment objective of the Fund is to outperform the Benchmark.

The Investment Manager has discretion to invest in securities not included in the Benchmark at any time in order to take advantage of investment opportunities. The investment strategy will restrict the extent to which the Fund's holdings may deviate from the Benchmark. This deviation may be significant.

In aiming to outperform this benchmark the portfolio invests in Equity and fixed interest instruments, and there is thus likely a large level of deviation in the short term from this benchmark.

The Fund's performance is measured against the National Total Consumer Price Index (CPI) (as published by the National Bureau of Statistics of China) + 3%.

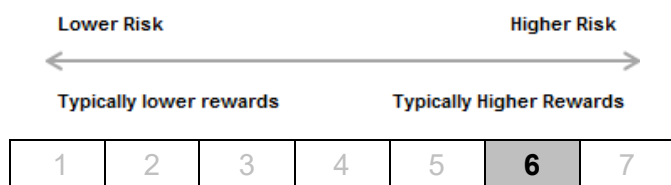

Any income arising from the Fund will be reinvested and it is not intended that the Fund will pay dividends.

You may buy and sell shares in the Fund on any day that is a Business Day in Ireland and China.

Unless otherwise defined in this document, all words and expressions defined in the Company's current Prospectus shall have the same meaning herein.

Please refer to the "Investment Objectives and Policies" section of the Prospectus for further information.
