

## Key Investor Information

This document provides you with key investor information about Prescient Core Global Equity Fund (the “Fund”). It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

### Prescient Core Global Equity Fund

a sub-fund of PRESCIENT GLOBAL FUNDS ICAV (THE “ICAV”)

(Share Class: Class C - USD)

This Fund is managed by Prescient Fund Services (Ireland) Limited (The “Manager”)

The Fund’s investment objective is to achieve long-term capital growth appreciation by seeking to outperform the MSCI World Total Return Index (the “Benchmark”).

The investment objective of the Fund may be achieved primarily by gaining exposure directly or indirectly (through the use of collective investment schemes ) to a diversified portfolio of global equity securities.

The Fund can invest up to 100% of the Net Asset Value in global equities and equity-related securities, which are listed on a Recognised Exchange worldwide. Equity and equity related securities to which the Fund may have exposure, include, but are not limited, to common stock, American depositary receipts and global depositary receipts, equity linked notes, and rights (which are issued by a company to allow holders to subscribe for additional securities issued by that company).

The Fund may also invest up to 100% of its Net Asset Value in the units and/or shares of collective investment schemes, including money market funds and exchange traded funds (which are eligible for investment by a UCITS) in accordance with the requirements of the Central Bank.

The Fund may also hold cash or ancillary liquid assets (comprising short-term money market instruments which will be listed on a Recognised Exchange, bank deposits and cash equivalents) for cash management purposes, as cover for financial derivative instrument exposure, and pending investment of subscription monies or in anticipation of future redemptions. It is possible that up to 100% of the Net Asset Value of the Fund may be held directly or indirectly (via investment in collective investment schemes) in cash or money market instruments at any time.

The Fund may use financial derivative instruments for efficient portfolio management to economically implement the Fund’s investment strategy. The financial derivative instruments used by the Fund will be exchange

traded futures and swaps. Financial derivative instruments may be traded on a Recognised Exchange or over-the-counter (“OTC”).

Investment will have a global focus insofar as investments are not confined or concentrated in any particular geographic region or market.

The Fund is considered to be actively managed in reference to the Benchmark by virtue of the fact that it seeks to outperform the Benchmark and it uses the Benchmark as a universe from which to select securities (while at the same time seeking enhancement opportunities). The majority of the Fund’s securities may be components of and may have similar weightings to the Benchmark, however, the Investment Manager will use its discretion to invest in securities or sectors, including through the use of financial derivative instruments, in order to take advantage of specific investment opportunities.

This Share Class will not pay a dividend. Any income arising from the Fund will be re-invested to grow the value of your investment.

The Fund is suitable for investors that seek long-term capital growth and can accept the volatility in capital values expected from a diversified global equity portfolio. These investors will typically have a medium to high-risk profile.

You may buy and sell shares in the Fund on each business day in Ireland on which banks in Ireland are open for business.

Unless otherwise defined in this document, all words and expressions defined in the Prospectus shall have the same meaning herein. Please refer to the “Investment Objectives and Policies” section of the Prospectus and the “Investment Objective and Policy” section of the Supplement for further information.

#### Risk and Reward Profile of the Fund

The risk indicator is determined using historical data or, where historical data is not available, using simulated historical data. Historical data, such as is used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not a target or a guarantee and may change over time. A category 1 fund is not risk free, the risk of loss is small but the chance of making gains may also be limited. With a category 7 fund, the risk of losing money is high but so also is the possibility of making gains. **The risk indicator for the Fund is set at 6 as this reflects the market risk arising from proposed investments.**

The Fund does not offer any capital guarantee or assurance that the investor will receive a fixed amount when redeeming.

**In addition to the risk captured by the indicator, the overall Fund value may be considerably affected by:**

- Interest Rate Risk – the value of the Fund’s fixed income investments may change adversely due to a change in current or expected interest rates.
- Market Risk - the Fund invests in shares of companies, and the value of these shares can be negatively affected by changes in the company or its industry or the economy in which it operates.
- Liquidity Risk - the risk stemming from the lack of marketability of an investment that cannot be bought or sold quickly enough to prevent or minimise a loss.
- Investment Risk - There is no guarantee that the investment objective of the Fund will be achieved. A capital loss of some or all of the amount invested may occur.

- Currency Risk - the Fund may be exposed to currency risk in relation to the valuation of assets held in currencies other than its base currency.
- Derivatives Risk - Derivatives are highly sensitive to changes in the value of the assets they are based on. The use of derivatives may result in gains or losses that are greater than the original amount invested.
- Counterparty Risk - The insolvency of any institutions providing services, such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

Please refer to the “Risk Factors” sections of the Prospectus and the Supplement for further information - see under “Practical Information” for how to obtain a copy.

## Charges for the Fund

These charges are used to pay the costs of running the Fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00 %
Exit charge	3.00 %
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charges	0.34 %
Charges taken from the Fund under certain specific conditions	
Performance Fee	None

The Exit and Entry charges shown are maximum figures, and in some cases an investor may pay substantially less, or there will be no charges at all. You can find out the actual entry and exit charges from your financial advisor, distributor or from Prescient Fund Services (Ireland) Limited (the "**Manager**").

The ongoing charges figure is an estimate based on a projection of the expenses of the Fund for the first twelve months of operation of the Fund, which includes estimates of any sales charges and ongoing charges which may be levied by the underlying collective undertakings into which the Fund invests.

This figure may vary from year to year. It excludes portfolio transaction costs, except in the case of an entry or exit charge paid by the Fund when buying or selling units in another UCITS or collective investment undertaking.

You can find more details about the charges in the section of the Prospectus entitled "Fees and Expenses" and in the Fund Supplement.

## Past Performance

**There is insufficient data for this Share Class to provide a useful indication of past performance.**

## Practical Information

**Fund Depositary:** Northern Trust Fiduciary Services (Ireland) Limited.
