

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Sigma Select Global Leaders Fund

a sub-Fund of PRESCIENT GLOBAL FUNDS ICAV (the "ICAV")

ISIN: IE00BJDQ3P30 , Share Class: C USD. This Fund is managed by Prescient Fund Services (Ireland) Limited (The "Manager")

Objectives and Investment Policy

The Fund has as its primary objective to outperform the MSCI All Country World Index (the "Benchmark"), which is a free float-adjusted market capitalisation index that is designed to measure developed-market equity performance throughout the world.

To achieve its objective, the Fund will invest up to 100% of its net assets in global equities, primarily through collective investment schemes and/or managed accounts. The Fund may also gain direct exposure to equity and equity-related securities such as common stock, preference shares and convertible preference shares, which are listed or traded on Recognised Exchanges.

The Fund may invest up to 100% of its Net Asset Value in UCITS and alternative investment funds, in accordance with the requirements of the Central Bank to gain exposure to global equity markets.

The Fund may also gain exposure to global equity markets by utilising segregated accounts (i.e. managed accounts), which are managed by discretionary investment managers selected and appointed by the Investment Manager as sub-investment managers in accordance with the requirements of the Central Bank.

The collective investment schemes and managed accounts referred to above are selected upon the completion of a thorough due diligence process, which will include both qualitative (i.e analysis that uses subjective judgment based on unquantifiable information, such as management expertise, industry cycles, strength of research and development, and the staff's skillset) and quantitative analyses.(i.e focusing on the historic performance and other quantifiable metrics).

The Fund may also invest directly in global currencies for the purposes of diversification.

The Fund may also from time to time hold ancillary liquid financial assets including debt securities (e.g. government, municipal, corporate

and securitized debt and money market instruments) in appropriate circumstances. Such debt securities may be issued by governments or corporations and will have a credit rating or an implied credit rating of investment grade. The Fund may also invest up to 10% in debt securities which are unrated.

The Fund will invest on a global basis and can invest in both developed and developing markets. The Fund may invest more than 20% of its net assets in securities listed or traded in, or issuers domiciled in, emerging markets. The Fund is actively managed in reference to MSCI All Country World Index by virtue of the fact that the investment objective of the Fund is to outperform. The Investment Manager has discretion to invest in securities not included in the Benchmark at any time in order to take advantage of investment opportunities. The investment strategy will restrict the extent to which the Fund's holdings may deviate from the Benchmark. This deviation may be limited. The Fund will not use financial derivative instruments. Any income arising from the Fund will be reinvested and it is not intended that the Fund will pay dividends. The Fund employs a long-term investment approach and is suitable for investors who have a medium to high risk profile.

Recommendation: The Fund may not be suitable for investors who plan to withdraw their money within 5 years.

You may buy and sell shares in the Fund every Thursday.

Unless otherwise defined in this document, all words and expressions defined in the Prospectus shall have the same meaning herein. Please refer to the "Investment Objectives and Policies" section of the Prospectus and the "Investment objective and policy" section of the Supplement for further information.

Risk and Reward Profile of the Fund

The indicator above is not a measure of the risk of capital loss, but a measure of the Fund's price movement over time.

- It is based on historical data and thus may not be a reliable indication for the future.
- The indicated risk category is not guaranteed and may shift over time.
- The indicator is designed to help investors understand the uncertainties both for loss and for growth that may affect their investment. In this context, the lowest category does not mean "risk free".
- The Fund is classified in the category indicated above due to the past behaviour of its target asset mix. The Fund does not provide its investors with any guarantee on performance, nor on the monies invested in it.

In addition to the risk captured by the indicator, the overall Fund value may be considerably affected by:

- **Credit Risk** - the Fund's fixed income and cash investments have the risk that a borrower will not honour its obligations and this will result in losses for the investor.
- **Market Risk** - the Fund invests in units of collective investment schemes, and the value of these units can be negatively affected by changes in the fund or its industry or the economy in which it operates.

- **Currency Risk** - the Fund may be exposed to currency risk in relation to the valuation of assets held in currencies other than USD.
- **Liquidity Risk** - the risk stemming from the lack of marketability of an investment that cannot be bought or sold quickly enough to prevent or minimise a loss.
- **Operational Risk / Third Parties** - investments in other funds have direct and indirect dependence on other service providers. The Fund may suffer disruption or loss in the event of their failure.
- **Liquidity Risk (Fund of Funds)** - investments in other funds are subject to the liquidity of those underlying funds. If underlying funds suspend or defer payment of redemption proceeds, the funds ability to meet redemption requests may also be affected.

Charges for the Fund

These charges are used to pay the costs of running the Fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	3.00%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charges	1.94%
-----------------	-------

Charges taken from the Fund under certain specific conditions

Performance Fee	0.00%
-----------------	-------

The Exit and Entry charges shown are maximum figures, and in some cases an investor may pay substantially less, or there will be no charges at all. You can find out the actual entry and exit charges from your financial advisor, distributor or the Manager of the Fund.

The ongoing charges figure is an estimate based on a projection of the expenses of the Fund for the first twelve months of operation of the Fund, which includes estimates of any sales charges and ongoing charges which may be levied by the underlying collective undertakings into which the Fund invests.

This figure may vary from year to year. It excludes portfolio transaction costs, except in the case of an entry or exit charge paid by the Fund when buying or selling units in another UCITS or collective investment undertaking.

You can find more details about the charges in the section of the Fund's Prospectus entitled Fees and Expenses.
